Vol. 2

The Main Gate to Campus

Dedication

This book is dedicated to the Graduating for him to shelve momentarily to read later.

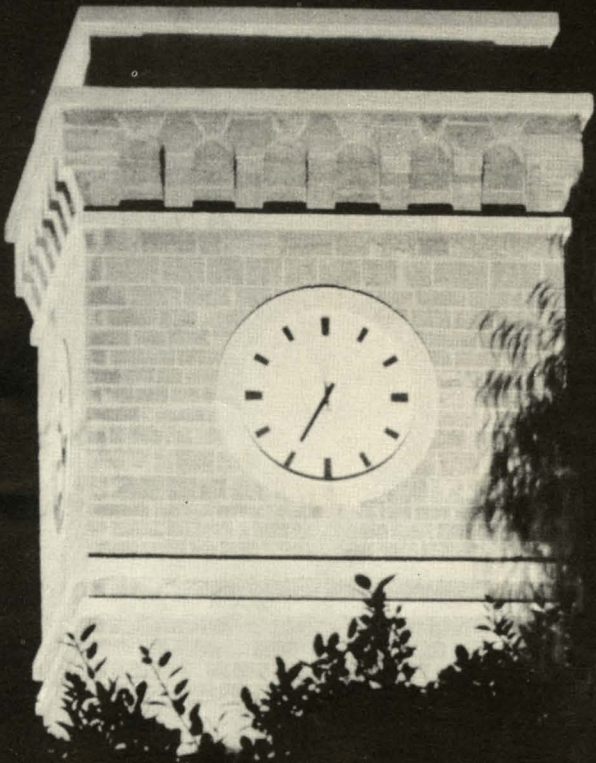

Then a big door opens and he steps into the world and the book finds its way into some remote corner of his bookcase. The full-fledged young man gathers experience . . . and the book dust.

And the years slip by, like trees seen from the window of a fast moving train, and school days recede into the distant past.

The scenes from the window change color, and the greying old man, whose eyes have seen so much change, sees all the views the same. His sight is blurred and memory becomes a name.

For this old man we dedicate our book — a dusty casement through which should he peep, he sees fresh, colorful scenes of an entirely new world . . . his old world. The strange familiar faces . . . and places . . . and feelings. A tear might fall . . . take care . . . the book, it has cost us lots of work and effort.

FUAD FRAYHA	<i>editor-in-chief medicine representative</i>
SALIM MANSOUR	<i>business advertising and circulation engineering representative</i>
MUNTHIR SALAMEH	<i>photography editor pharmacy representative</i>
SHOGHIG TOUZJIAN	<i>secretary nursing representative</i>

L i f e

"This college is for all conditions and classes of men without regard to color, nationality, race or religion. A man white, black, or yellow: Christian, Jew, Mohammedan, or heathen, may enter and enjoy all the advantages of this institution for three, four or eight years; and go out believing in one God, in many gods or in no God. But it will be impossible for anyone to continue with us long without knowing what we believe to be the truth and our reasons for that belief."

Daniel Bliss

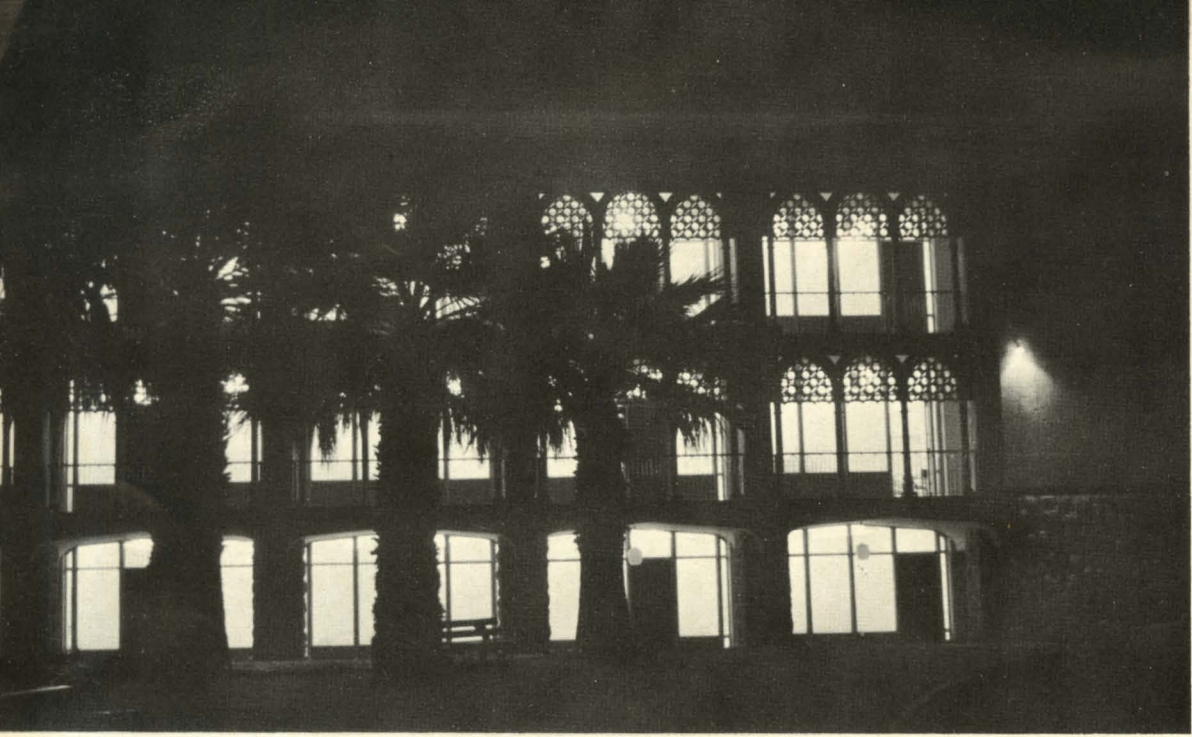

"Some books are to be tasted, others to be swallowed, and some few to be chewed and digested."

Bacon

*"The night has a thousand eyes
And the day but one,
Yet the light of a whole world dies
With the dying sun."*

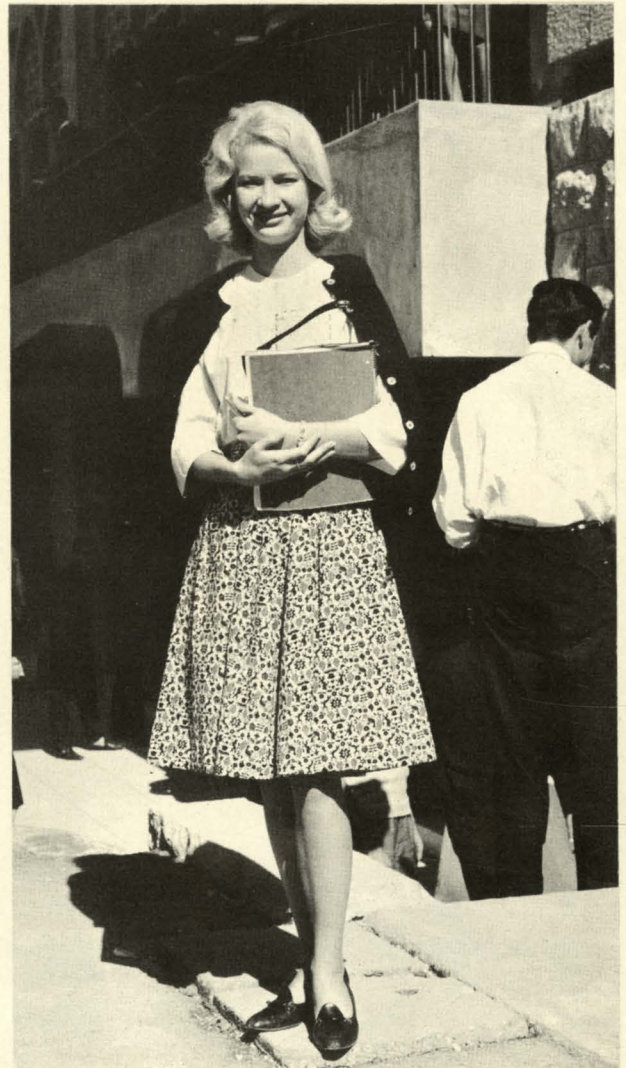

Shelley

“ In the beginning, said a Persian poet, — Allah took a rose, a lily, a dove, a serpent, a little honey, a Dead Sea apple, and a handful of clay. When he looked at the amalgam — it was a woman.”

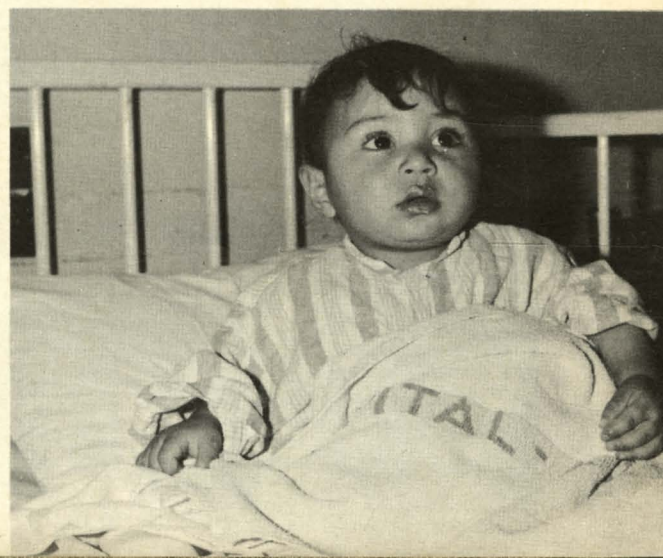

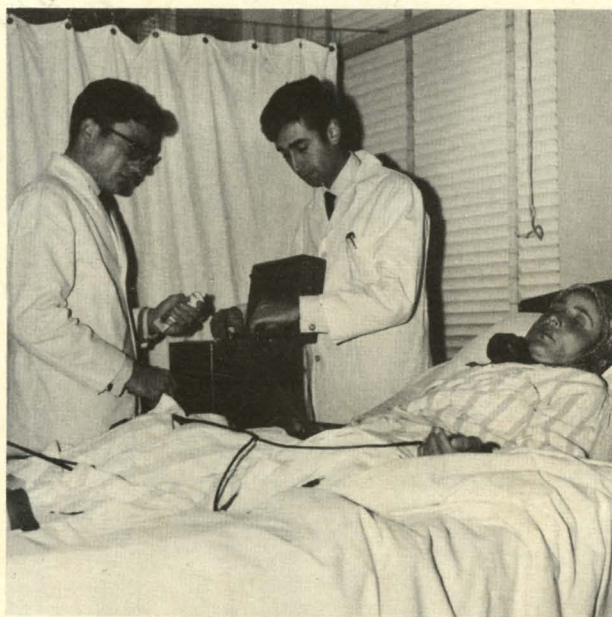

William Sharp

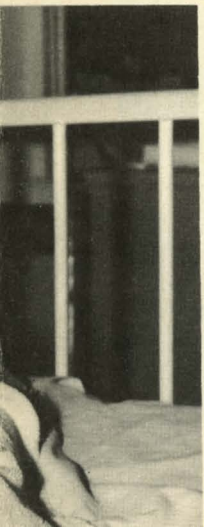

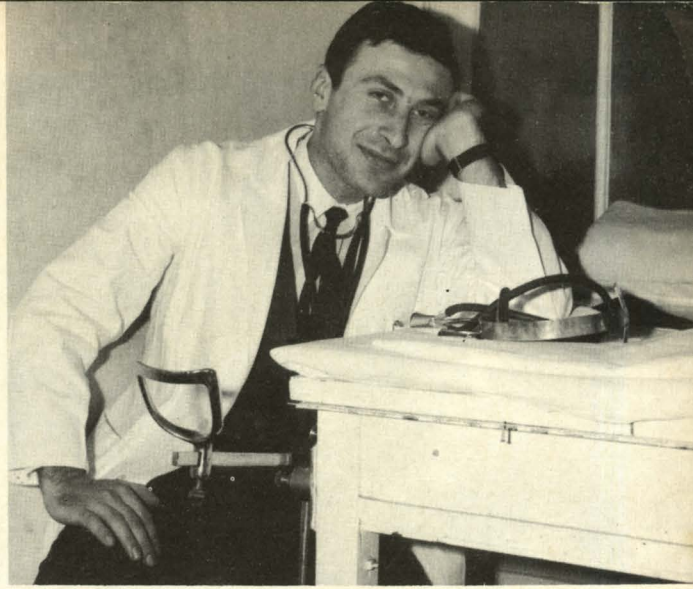

"God created woman. And boredom did indeed cease from that moment — but many other things ceased as well."

Nietzsche

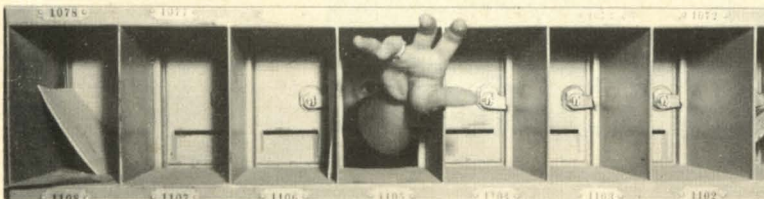

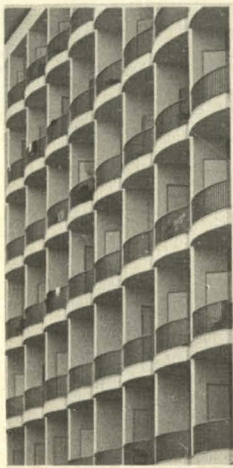

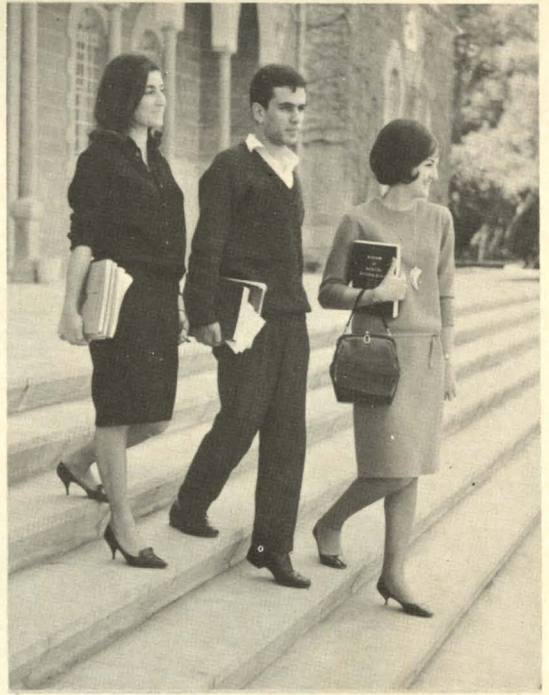

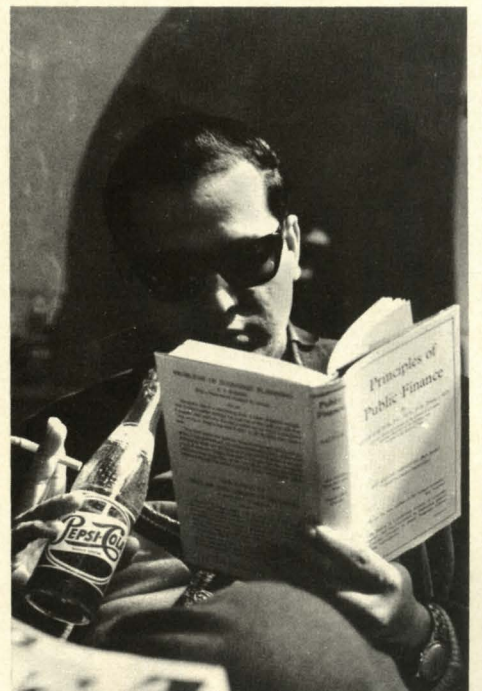

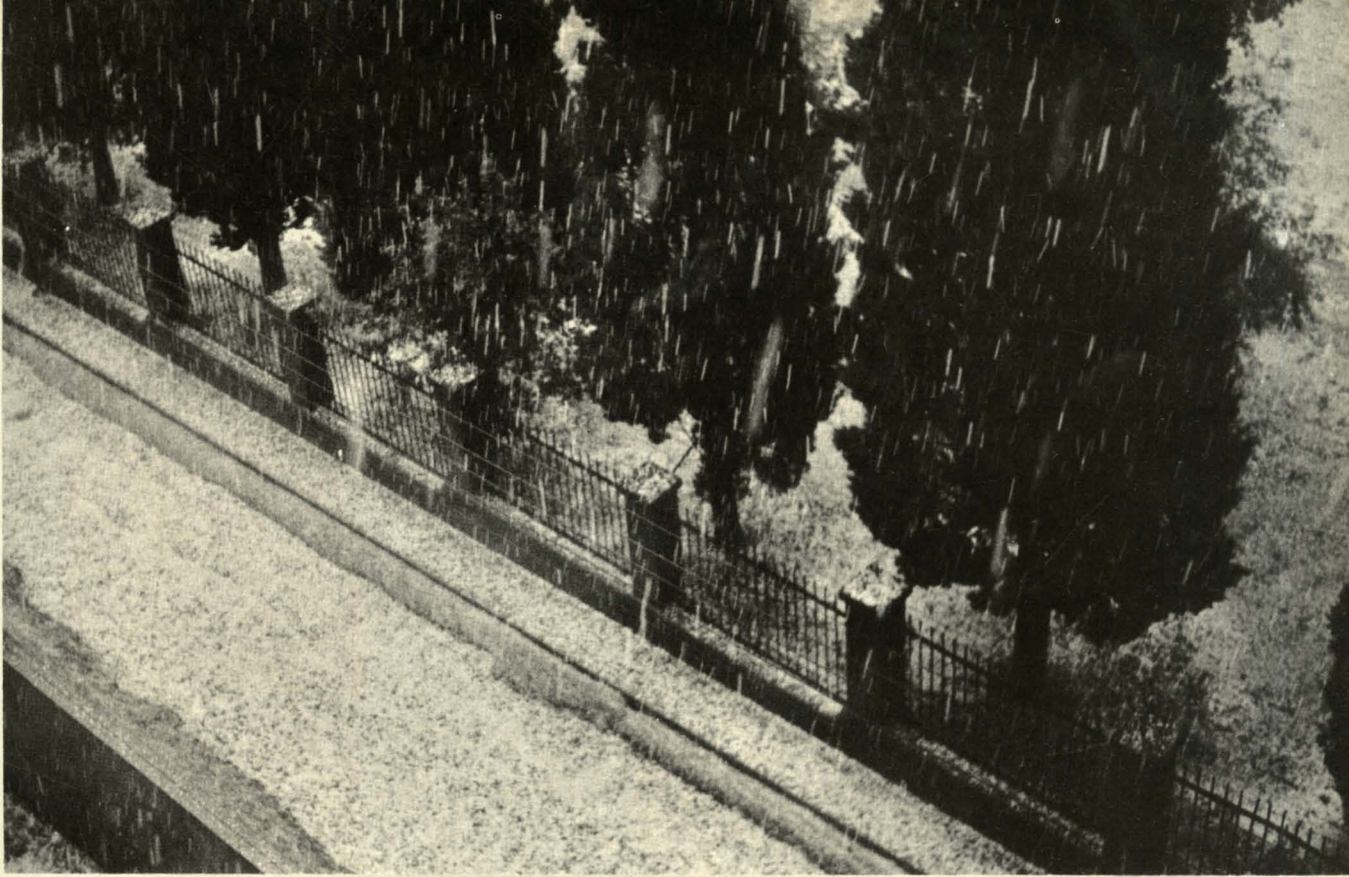

"The rule of my life is to make business a pleasure, and pleasure my business,"

Aaron Burr

Administration

Through its first century of existence, the American University of Beirut has developed its own unique character. Often in my travels, and in talks with distinguished visitors on this campus, I have been impressed with the widespread recognition, in the Middle East and in North America, of the character and achievement of this institution.

Each generation of faculty and students has added its contribution. Like a coral reef, the shaping of the final structure is never-ending; and the form it takes depends upon the quality and worth of those associated with it.

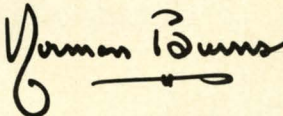

Why is it that some universities ossify and others continue to grow? I am not sure I know the answer. But of one thing I am certain: As long as a university is guided by ideals, as long as it is aware of the impelling needs of the society in which it is located, as long as it is sustained by a sense of mission to serve those needs to the benefit of humanity, that university will have vitality and self-renewing life.

In such a university a student may hope to obtain the kind of education that will prepare him for a constructive life. When Woodrow Wilson, a former professor and college president, was addressing students in 1913, he said:

‘What a man ought never to forget with regard to a college is that it is a nursery of principle and honor . . . I cannot admit that a man establishes his right to call himself a college graduate by showing me his diploma. The only way he can prove it is by showing that his eyes are lifted to some horizon which other men less instructed than he have not been privileged to see . . . You are here in order to enable the world to live more amply, with greater vision, with a finer spirit of hope and achievement. You are here to enrich the world, and you impoverish yourself if you forget the errand.’

*May I congratulate the Student Board of Managers upon this fine Yearbook. You are worthy successors to those who created the first and never-to-be-forgotten all-University Yearbook, the **Campus of 1963**. The **Campus of 1964** will serve as a tangible reminder of your years of study and effort at this University. We hope it will evoke happy memories of your sojourn here.*

Good luck and best wishes to those who people this book, to all those who helped create it, and to those who turn its pages with pride and joy.

PRESIDENT

Vice Presidents

ARCHIE CRAWFORD, Vice President.

FUAD SARRUF, Vice President ; University Relations.

Office of Student Life

PAUL ARNOLD, Dean of students.

MARY ROBINSON, Dean of Women.

MICHEL SHAMMA'A, Chief Student Adviser.

ABDUR RAHMAN BARBIR, Housing Director.

AZIZ NAHHAS, Buildings and Grounds Superintendent.

FRANCIS KENT, University Librarian.

CARLIS HUDSON, Director of Office of Procurement, Traffic and Sales.

ELIAS MOORE, Director of Personnel.

KARAM KARAM, Benefits Coordinator.

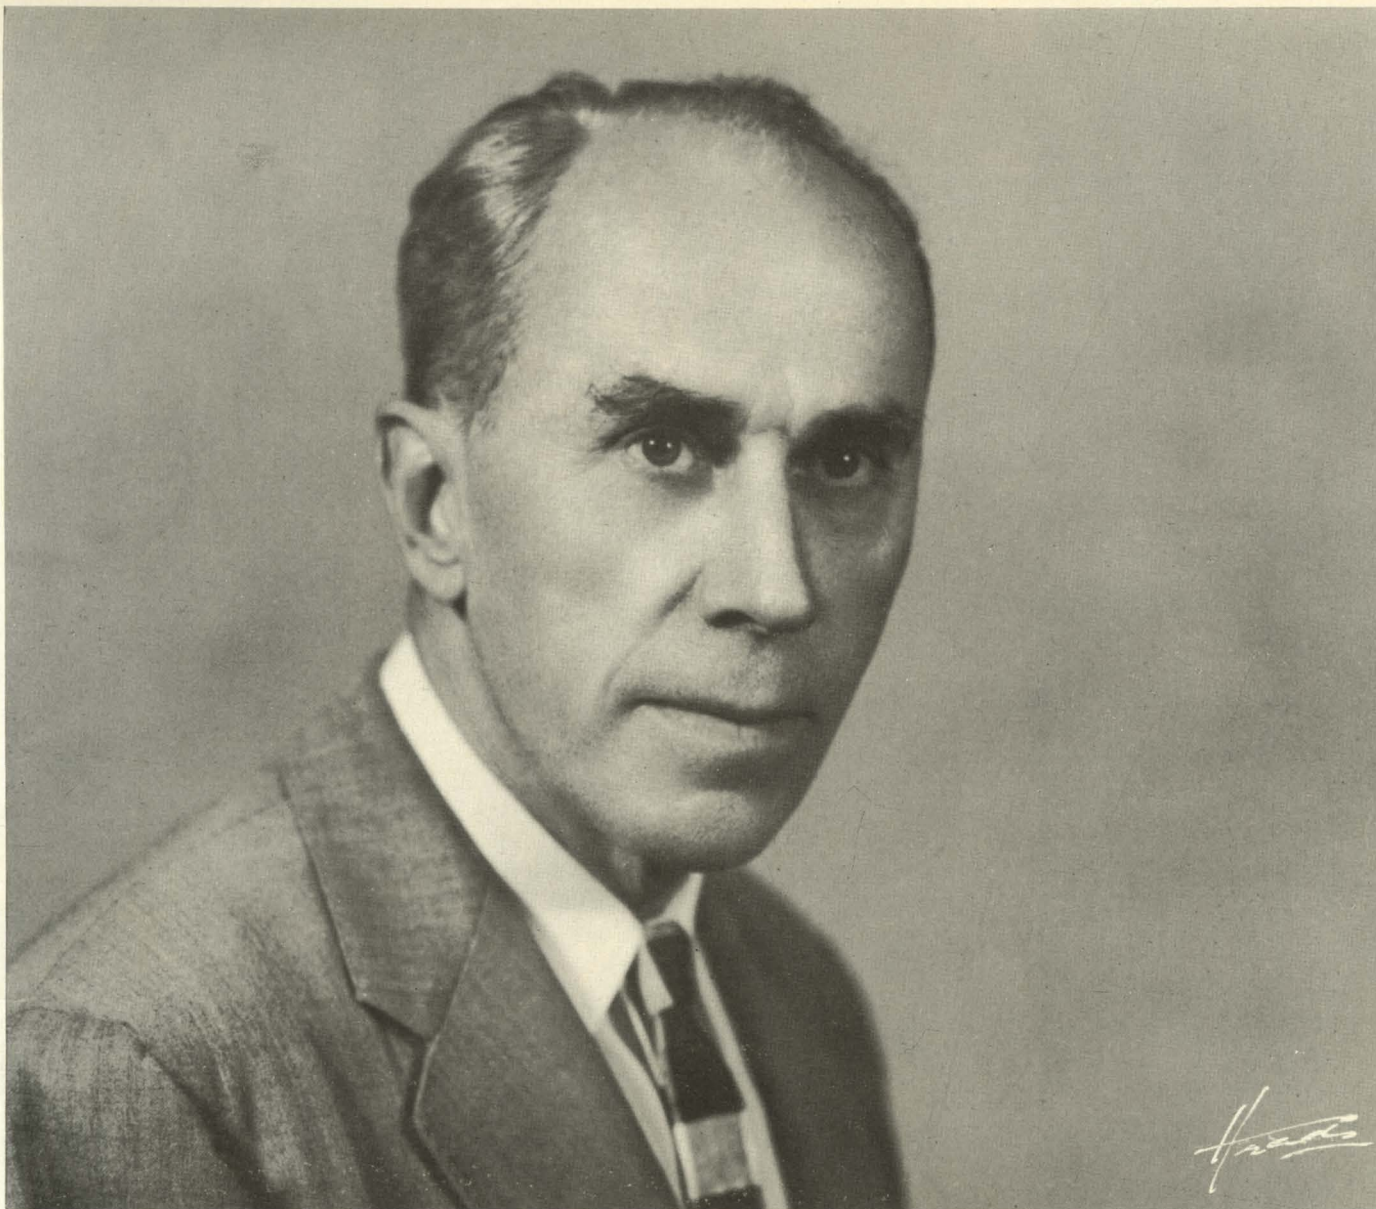

School of Agriculture

ROBERT A. NICHOLS, Ph. D., Dean, Faculty of Agricultural Sciences.

The principal task of all of us who are fortunate enough to have chosen agriculture as our profession is the production of food. To have chosen this profession in an area which is a food deficit area is challenge enough. However, the fact that most of you will be working under arid or semi-arid conditions presents an additional challenge. The Faculty of Agricultural Sciences believes that you are prepared to accept this challenge.

We the Faculty will be watching your progress with interest. Always remember that you are not working alone, Although you have left us we are always here to help you in your careers whenever help is needed. Therefore, wherever you are please do not forget us — you may need us. We do not want to forget you.

Robert A. Nichols

J. DEAN McCRARY, Assistant Dean, Faculty of Agricultural Sciences.

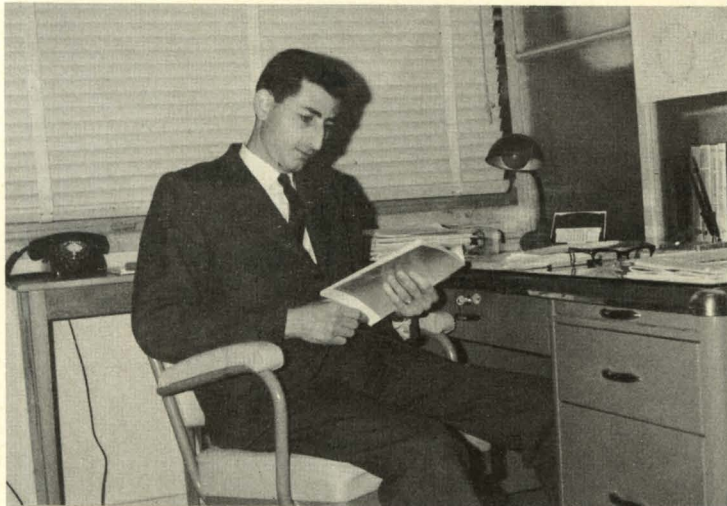

WALLACE W. WORZELLA, Head, Graduate Committee.

YUSUF KHASHADURIAN
Farm Superintendent

RAMZI KHALIDY
Advisor, Agriculture Yearbook Committee

NASRI KAWAR
Advisor, Society of Agriculture Students

HEINRICH WELZIEN
Advisor, Athletic Committee

Miss MONA AUDEH, Secretary.
 Miss ROSE HUGO, Secretary.
 Miss HILDA MOADIE, Office Manager.
 Miss ARMINEH BEZDIKIAN, Secretary.
 Mrs. SAMIA FULEIHAN, Secretary.

Miss SAMIA SHEHADEH, Secretary.
 Miss ISABELLE TARABULSI, Farm Nurse.
 FUAD GHARIB, Farm Accountant.

Miss VIVIANE FARAH, Assistant Librarian.
 Miss IRENE GUEZUMIAN, Librarian.

Division of Agricultural Economics and Sociology

CLIFTON W. LOOMIS, Ph. D., Visiting Associate
Professor of Farm Management

GORDON H. WARD, Ph. D., Professor of Agricultural
Economics, Head, Division of Agricultural
Economics and Sociology.

AWNI T. RAAD, M. Ed., Instructor of Extension.

Division of Animal Production and Protection

SAMIR M. BADAWI, Ph. D., Assistant Professor of Animal
Production and Protection.

KNUD V. ROTTENSTEN, Ph. D., Professor of Animal
Production, Head, Division of Animal Production
and Protection.

NUHAD J. DAGHIR, Ph. D., Assistant Professor of Poultry.

FRANKLIN R. AMPY, Ph. D., Assistant Professor of Animal
Production and Protection.

Division of Food Technology and Nutrition

RAJI I. TANNOUS, Ph. D., Assistant Professor of Food
Technology.

JAMES W. COWAN, Ph. D., Assistant Professor of Food
Technology and Nutrition.

ZAKARIA I. SABRY, Ph. D., Associate Professor of Food
Technology and Nutrition, Head, Division of Food
Technology and Nutrition.

Division of Crop Production and Protection

DONALD W. BRAY, Ph. D., Associate Professor of
Plant Genetics and Plant Breeding.

MRS. S. W. EDGECOMBE, M. S., Associate Professor of
Taxonomy.

WALLACE W. WORZELLA, Ph. D., Professor of Agronomy,
Head, Division of Crop Production and Protection.

ENOS E. BARNARD, Ph. D., Associate Professor
of Horticulture.

J. DEAN McCrARY, Ed. D., Professor of Agricultural
Engineering.

RAMZI KHALIDY, Ph. D., Assistant Professor of
Subtropical Horticulture,

NASRI S. KAWAR, Ph. D., Assistant Professor of Entomology.

ABDUL MUNIM TALHOUK, Dr. rer. nat., Associate Professor
of Entomology.

HAIG A. KOPOOSHIAN, Ph. D., Assistant Professor of
Seed Technology.

HEINRICH C. WELZIEN, Dr. rer. nat., Associate Professor
of Plant Pathology.

Division of Soils and Irrigation Engineering

MARCEL AWAD, Ph. D., Assistant Professor of Soils.

ALEXANDER H. KNIGHT, A. R. I. C., Visiting Expert of the International Atomic Energy Agency.

SALIM W. MACKSOUD, D. E., Associate Professor of Irrigation Engineering.

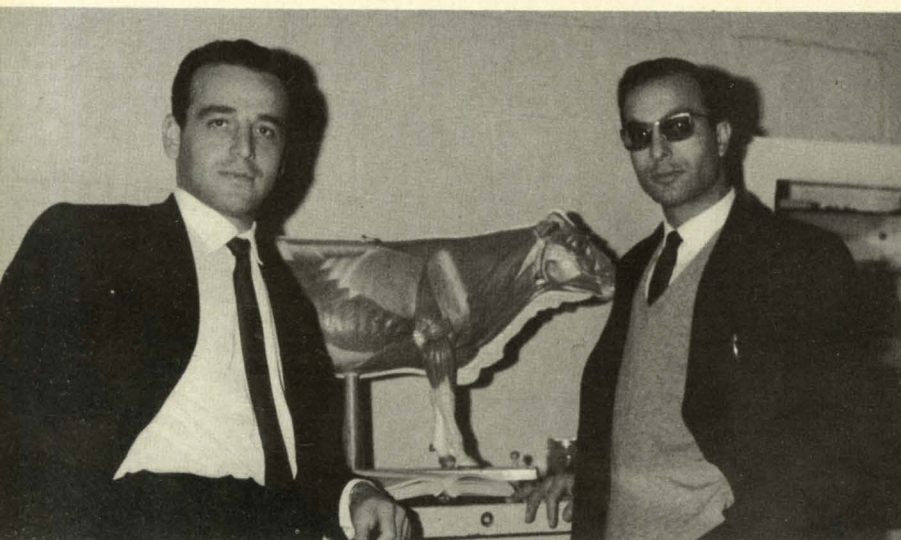

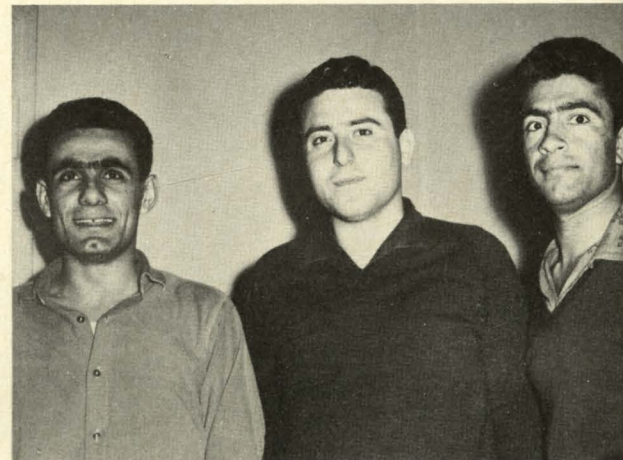

HOWARD D. FUEHRING, Ph. D., Associate Professor of Soils, Head, Division of Soils and Irrigation Engineering.

Assistant Instructors

HIKMAT NASR, B. S., Assistant Instructor of Agronomy.

SAMI SAAD, B. S., Assistant Instructor of Seed Technology.

FARAMARZ ZAREI, B. S., Assistant Instructor of Horticulture.

Graduate Assistants

KOURKEN BEDIRIAN, B. S., Graduate Assistant in Animal Production and Protection.

MANUEL MANUELIAN, B. S., Graduate Assistant in Animal Production and Protection.

In Absentia :

DJAMSHID POROUSHANI, B. S., Graduate Assistant in Poultry Science.

SAMI MUSA, B. S., Graduate Assistant in Entomology.

ALI-REZA SEPAHI-DONBOLI, B. S., Graduate Assistant in Horticulture.

ZIA-EDDIN RAFII, B. S., Graduate Assistant in Agronomy.

ANTOINE KHARRAT, B. S., Graduate Assistant in Agricultural Engineering.

NEMATOLLAH AHMADI, B. S., Graduate Assistant in Subtropical Horticulture.

CHRISTIOS CHRISTIAS, B. S., Graduate Assistant in Plant Pathology

SARKIS MARGOSSIAN, B. S., Graduate Assistant in Food Technology and Nutrition.

HISHAM AWARITANI, B. S., Graduate Assistant in Agricultural Economics and Sociology.

In Absentia :

MOJTABA ESFAHANI, B. S., Graduate Assistant in Food Technology and Nutrition

KAMIL S. HADDAD, B. S., Graduate Assistant in Soils.

ARSALAN MAZAHERI, B. S., Graduate Assistant in Soils.

MUHAMMAD T. ALI-HANBALI, B. S., Graduate Assistant in Irrigation.

MUSA NIMA, B. S., Graduate Assistant in Irrigation.

Research Assistants

SONA SARKISSIAN, B. S., Research Assistant in Food Technology and Nutrition (F.T.N.).

FUAD SIMAAN, B. S., Research Assistant in F. T. N.

FAWZI RINNO, B. S., Research Assistant in F. T. N.

MUNTHUR KUZAYLI, B. S., Research Assistant in F. T. N.

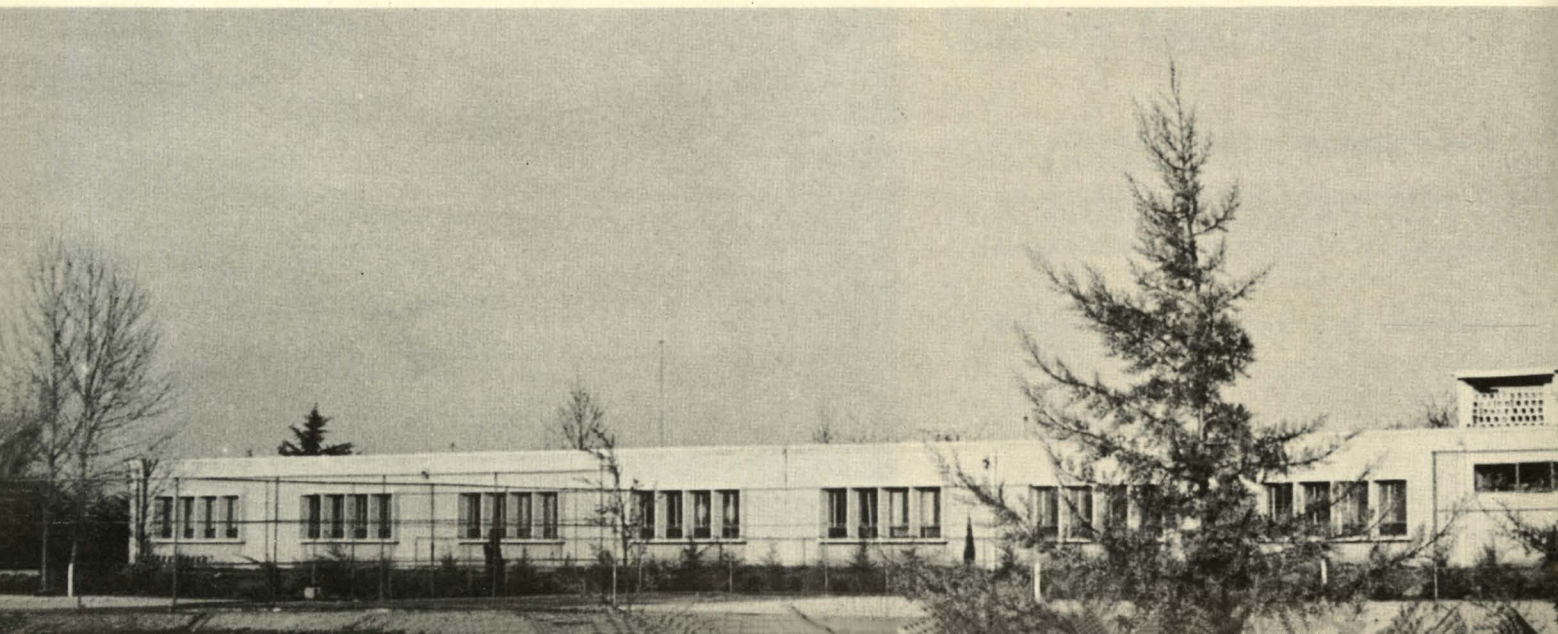

SOSSY SHADAREVIAN, B. S., Research Assistant in F. T. N.

In Absentia : JOSEPH SALJI, B. S., Research Assistant in F. T. N.

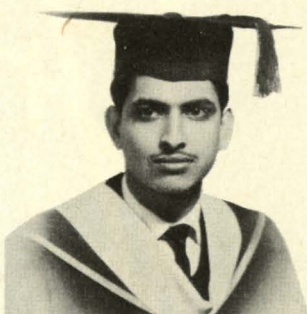

YERANOUHI KALAJIAN, Technician, Veterinary Medicine.

LOUSAPER O. UNKABABIAN, B. S., Research Assistant in Soils.

Behind the Iron Curtain.

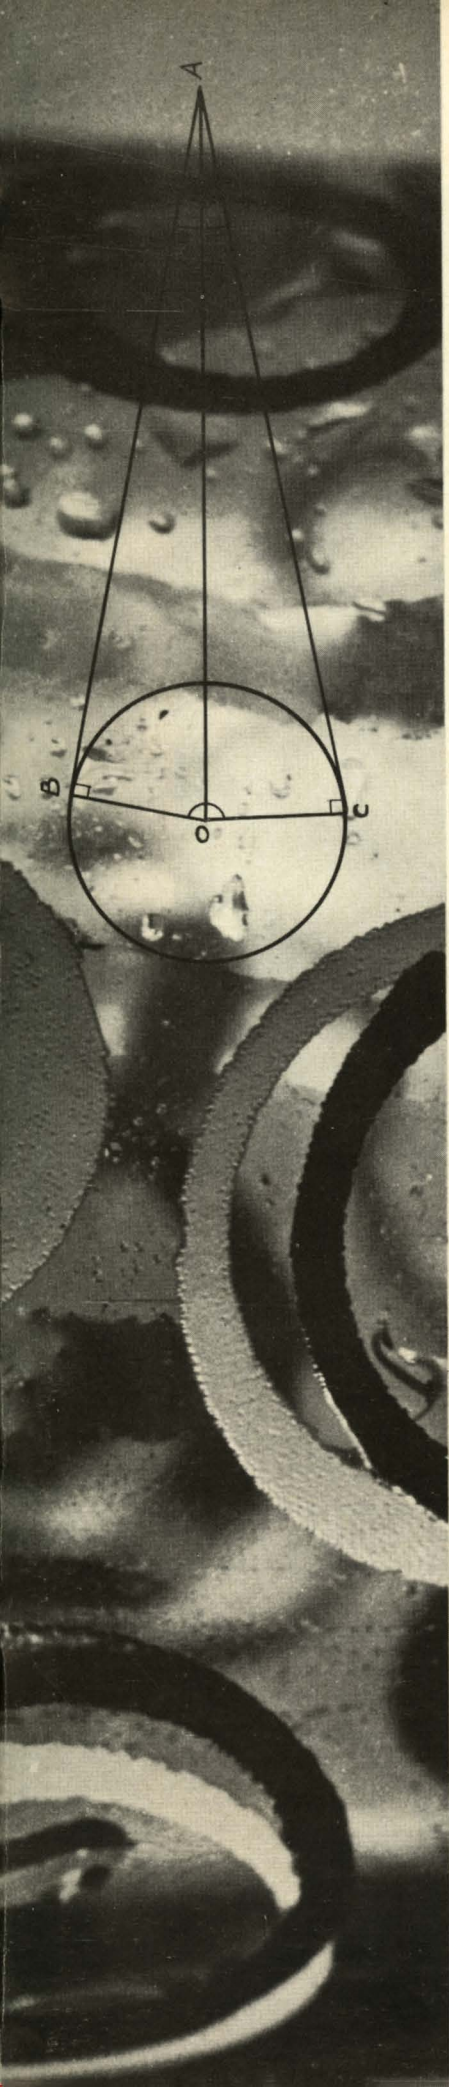

the boys from the (old) men !!

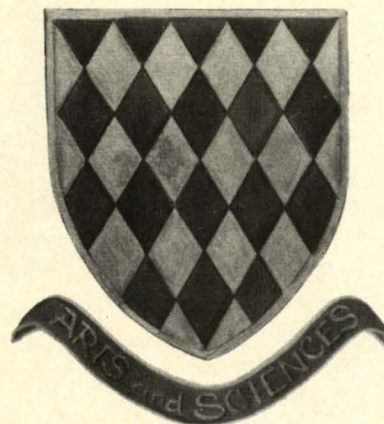

Do it tomorrow ... you've made enough mistakes today.

School of Arts and Sciences

FARID S. HANANIA, Dean of Arts and Sciences

"The service of philosophy, of speculative culture, towards the human spirit, is to rouse, to startle it to a life of constant and eager observation".

It is my great hope that your years in the Faculty of Arts and Sciences have given you an awareness of new horizons, have developed in you fresh and useful insights and have made intellectual excitement irresistible and real. This is what the American University of Beirut — with its classrooms and laboratories, its trees and flowers, its teachers and administrators, its century of tradition and of service to the Middle East — is for.

"We have an interval, and then our place knows us no more; our one chance lies in expanding that interval, in getting as many pulsations as possible into the given time."

If we at this university, given your eagerness, interest and diligence, have been able in this interval — the few, short, crowded years of your academic life — to stir and to stimulate you, if what we have taught and what you have learned have yielded you "a quickened, multiplied consciousness", both we and you have succeeded in our mutual task.

No Comment !

Anthony and Cleopatra

I suppose this is how Picasso started

Our three local monkeys

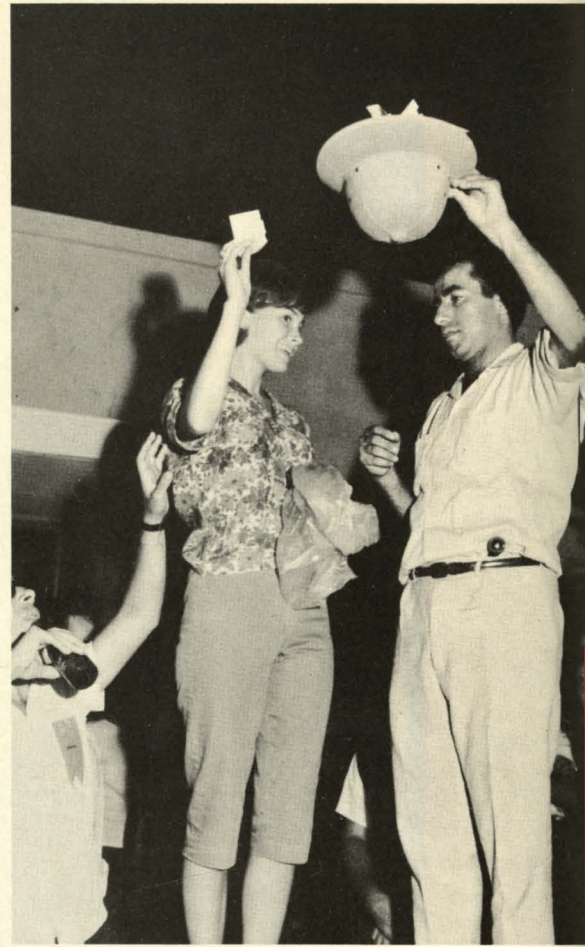

Think about it first, PLEASE !

Having fun, kids ?

You don't have to tell us

You have to come closer to get it

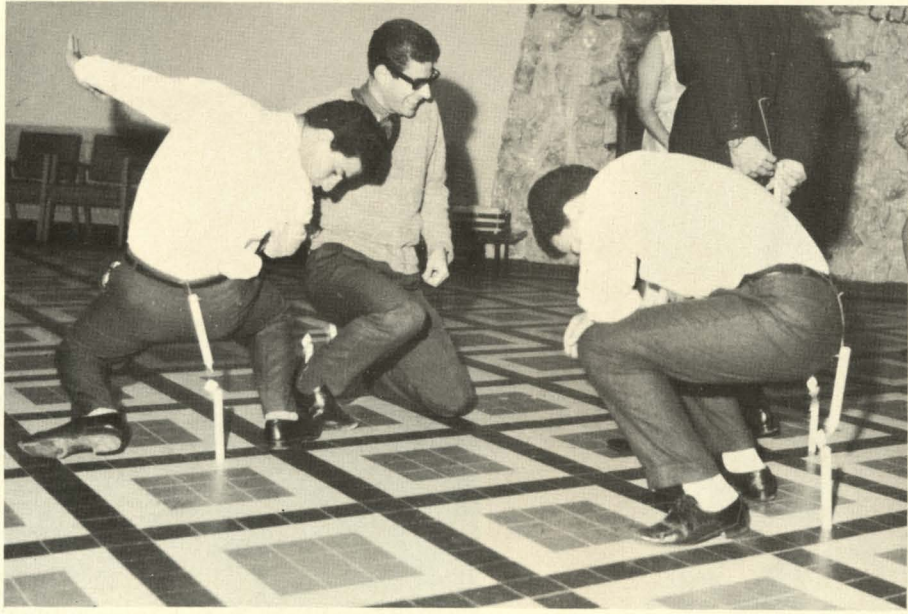

So that's how

they study

You say you're a little far-sighted ?

Hot Seats

Sold !

Are You Twisting ?

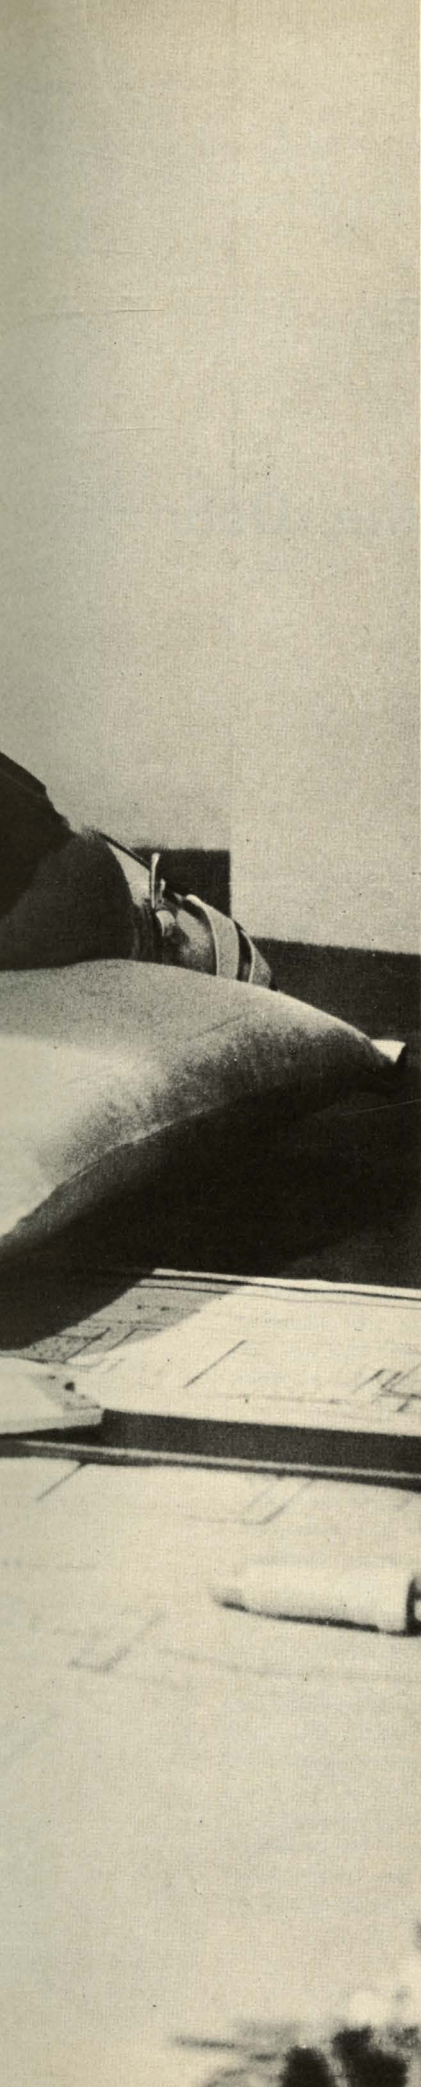

Is It For Sale ?

So THAT'S where the liquor is !

School of Engineering

Message from the Dean for Yearbook:

To All Students in the School of Engineering :

This is a time in history when the ever-increasing tempo of scientific and technological advance is one of the dominant factors in the world scene. When we consider the changes that have taken place during the past few decades, we can say with certainty that developments during the next forty years will stagger the imagination. With advances in transportation and communication, we know that the world grows smaller; and few places in this ever-smaller world will be exempt from the impact of these changes.

The forty years ahead are the very years when today's students in Engineering and Architecture will be having their careers. I can predict with confidence, therefore, that many of you, during your careers, will have to find solutions to problems so new that they cannot even be defined today.

The professions encompassed by the Faculty of Engineering are, and will always be, based on both Science and Art. Both of these are important in solving the problems that we know about today, and both will be important in meeting the problems of tomorrow. But you will be increasingly glad as the years go by, that your studies at A. U. B. have had their base in Mathematics and in Science. From this base, one can build solidly; one can conquer not only the technological problems that must be faced today, but the unknown problems that are inherent in the future.

But if the tempo of technological advance is one of the principal factors in today's scene, this is matched by a second factor of equal moment: there is danger that his rapid advance will outstrip man's ability to integrate the new technology into his culture in a meaningful and beneficial manner. As Engineers and Architects, you are privileged in having special potential; but this privilege carries with it a special responsibility. Each one of you must determine that your knowledge and skills shall be used to make the world a better place in which to live, to work, and to play.

I am certain that each of you intends to do this; but good intentions are not enough. You must always strive to know more about the world in which we live, and the people who live in it, so that you can become wiser in your judgments as to what is beneficial in the true sense. Your studies in the cultural subjects, and your participation in extracurricular activities, point the way to a breadth of interest and understanding. Build on these, too, now and throughout your careers. Let us always remember that, in the last analysis, the worth of new structures and new machines is measured, not in units of mass or of time or distance, but by the dimensions of human values.

A. U. B.

JOHN B. WILBUR

Born in Oakland, Maine, in 1904. S. B., S. M., and Sc. D. from the Massachusetts Institute of Technology. Wide professional experience includes: structural draftsman for the Maine Central Railroad, bridge designer for the New York Central Railroad, chief engineer for the Smith Putnam Wind Tunnel Project for S. Morgan Smith Company of York, Pennsylvania, and chief engineer for the Boston Central Artery. For many years and until recently was a consultant for the well known firm Fay, Spofford & Thorndike, of Boston, Massachusetts. Member of the honorary societies of Sigma Xi and Tau Beta Pi. Fellow of the American Society of Civil Engineers and a past president of the Massachusetts Section; member and past president of the Boston Society of Civil Engineers; member of American Society for Engineering Education, Society for Experimental Stress Analysis, and the American Association for the Advancement of Science. Served in above organizations as speaker and discussion leader. Contributed many articles to various professional journals. In recent years has been especially concerned with the development of the engineering education. Co. — author with Prof. Norris of the *Theory of Statistically Indeterminate Structures* and *Elementary structural Analysis*, which has been the Structures textbook in the School of Engineering for many years. Worked through the ranks of graduate assistant, instructor, assistant professor, associate professor and full professor at M.I.T. where he was appointed acting head of the Department of Civil and Sanitary Engineering in 1944, and head in 1946 — in which position he served until 1960 when he went into semi-retirement but continued to act as Consulting Professor at M. I. T. Assumed office as Dean of the School of Engineering, A. U. B., early in January 1964.

FACULTY

T. G. Bridgwood - Acting Dean - Summer 1963.

Khosrof Yeramian - Acting Dean - Fall Term 1963 - 1964.

Khosrof Yeramian - M. Sc. - Professor of Architectural Engineering.

Friedrich Ragette - Dipl. Ing. Arch. - Instructor in Architecture.

George Contavelli - B. Sc. - Assist. Professor in Architecture.

Raymond Ghosn - M. S. C. E. - M. Arch. Professor in Architecture.

Assem A. Salam - B. A. (Arch) - Assist. Professor of Architecture.

Samir Khairallah - B. A. (Arch) - Assist. Professor of Architecture.

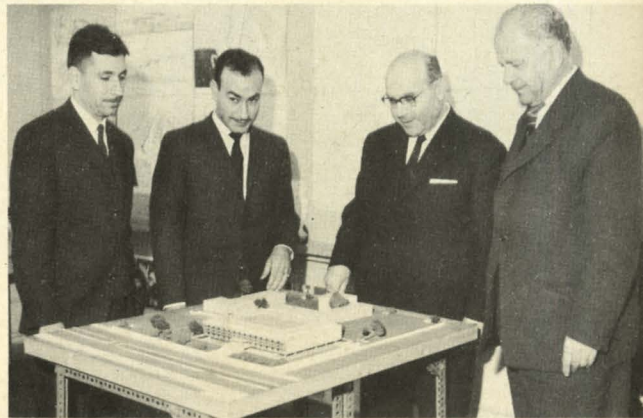

Hratch Papazian - Ph. D. - Assist. Professor of Civil Engineering.

Zuhair Alami - Ph. D. - Assist. Professor of Civil Engineering.

Jack Nasser - Ph. D. - Professor of Civil Engineering.

Haroutune Kalayan - B. Sc. - Assoc. Professor of Engineering Sciences.

Antranik Melikian - M. S. C. E., M. Sc. - Assist. Professor of Engineering Sciences.

Robert Sloane - Ph. D. Professor of Engineering Sciences.

Terence Searle - B. Sc. - Assist. Professor of Engineering Sciences.

Nur Hawa - A. M. I. Prod. E. Aeronautical Engineer, Instructor in Engineering.

Yeghishe Avedissian - B. S. P. E. - Assist. Professor of Engineering Sciences

Hassan Ghandour - M.Sc. - Instructor in Electrical Engineering.

Gabriel Matta - Ph. D. - Lecturer, Assist. Professor of Civil Engineering.

Adnan Fattouh - M. Eng. - Lecturer in Electrical Engineering.

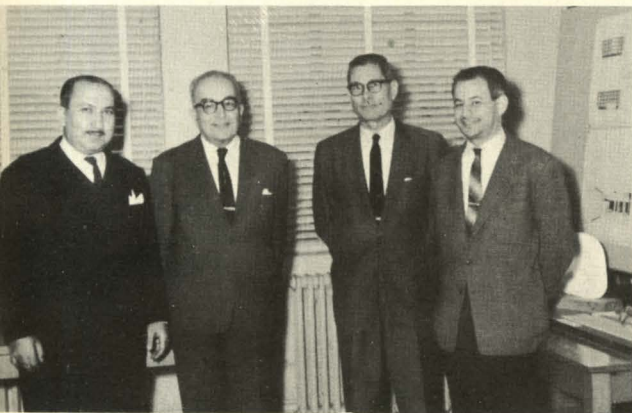

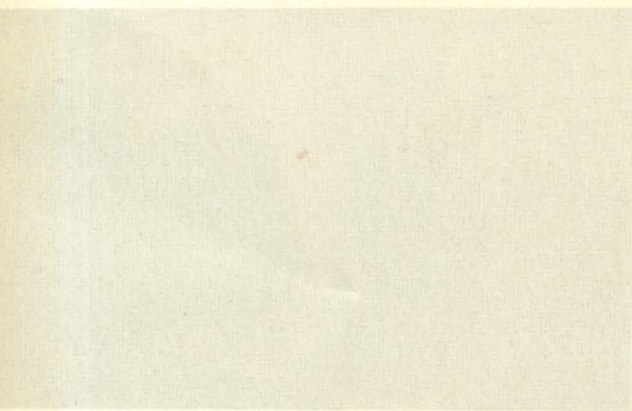

D. Russel - M. Sc. Assist. Professor of Electrical Engineering.

Anton Voght - Assist. Professor of Cultural Sequence.

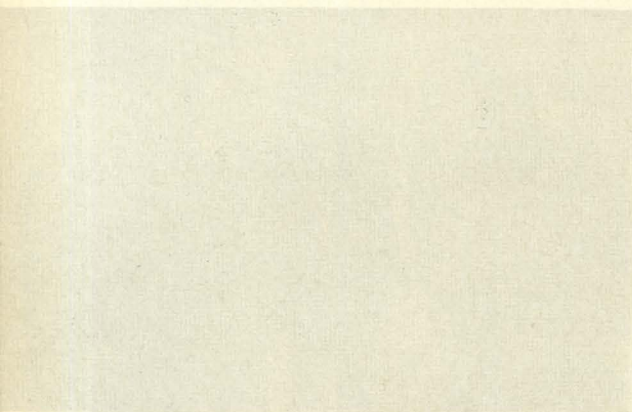

T. G. Bridgwood – Ph. D. – Professor of Electrical Engineering
Frank Regier – Ms. C. – Assist. – Professor of Electrical Engineering.
Kan'an Kano – Ph. D. – Assoc. Professor of Electrical Engineering.

Munir El-khatib – M. S. C. E. – Assoc. Professor of Civil Engineering.
Nicolas Manasseh – M. E. – Professor of Civil Engineering.
Edward Hope – B. A., M. S. C. E., Ph. D. – Professor of Civil Engineering
Neddy Jouzy – Ph. D. – Assist. Professor of Civil Engineering.

Albert Kur'an – M. Sc. – Assist. Professor of Mechanical Engineering.
George Abi-Rashed – B. Sc. – Assist. Professor of Mechanical Engineering.
Sulayman Deeb – M. Sc. – Assoc. Professor of Mechanical Engineering.
Fateh Sakkal – Ph. D. – Assoc. Professor of Mechanical Engineering.
Pierre Azoury – Ph. D. – Assist. Professor of Mechanical Engineering.

GRADUATE STUDIES IN THE FACULTY OF ENGINEERING

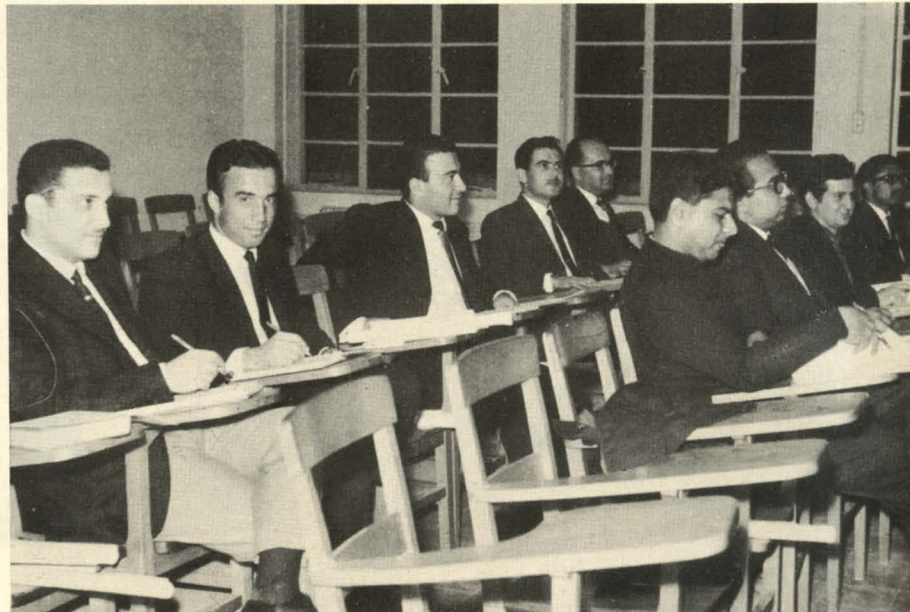

The offering of postgraduate studies in the Faculty of Engineering was started in October 1956 with courses in Structures and Hydraulics. The first Master of Engineering degrees were granted to three Pakistani students in June 1958. Each of these had completed two years of study in residence at A. U. B., after receiving the Bachelor's degree.

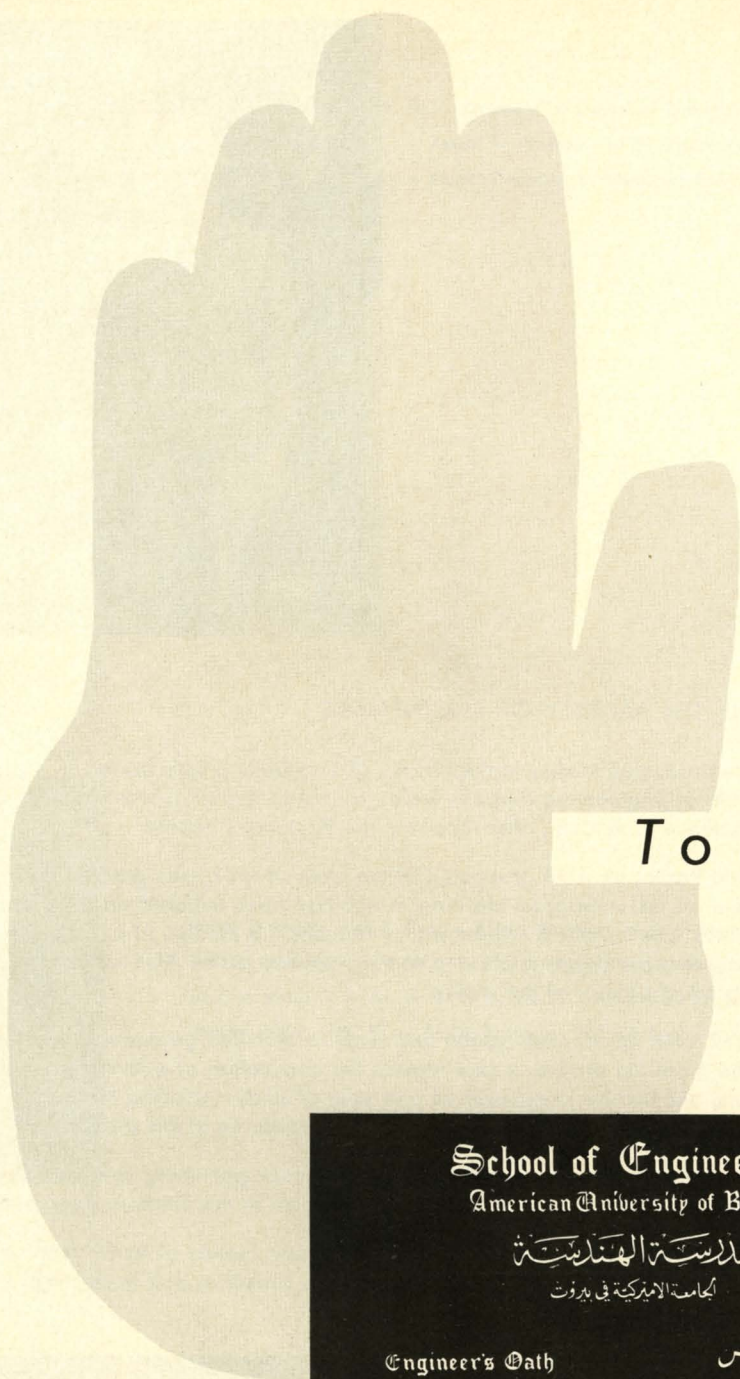

In 1959, Mr. Edmond Pasha, an AUB graduated of the class of 1952, was granted the degree of Master of Engineering. He had been required to complete all the undergraduate work which had been initiated since he graduated. After he had completed most of his work, this rigorous policy was modified. Present policy requires the holders of a Bachelor's degree from a recognized school of engineering to complete only those undergraduate engineering courses of the AUB curriculum which are in the sequences actually prerequisite to the proposed graduate major of the student.

In the spring of 1962, after much investigation and study, a modified graduate program was approved permitting specialization in Sanitary Engineering. The graduate programs now require the completion of a minimum of 30 credit hours of specified work, including a project of 6 credit hours, and involve a minimum of one year of study, including the summer, which is normally devoted to the project. In October 1962, two full-time and five part-time students were registered in this program.

In October 1963, a further modification of the program of study permitting specialization in Civil Engineering was introduced and started by thirteen students. This year, eleven students were enrolled in the Sanitary Engineering program.

The University Survey Report of 1961 on "The Future Role and Needs of AUB" recommends the expansion of graduate work. The members of the Faculty of Engineering are in full accord with this objective and have taken initiative in its implementation.

To the

School of Engineering
American University of Beirut

مدرسة الهندسة
الجامعة الأميركية في بيروت

Engineer's Oath

Owing the heritage left by my professional forebears, I dedicate myself to the pursuit of knowledge and the search for truth in the extension of the benefits of my profession to humanity. I will strive always to disseminate what engineering knowledge I acquire. And I will fully accept my responsibility for the instruction of younger members of my profession.

Jealous of the high repute of my calling, I will strive to protect the interests and the good name of any engineer.

To all, I pledge integrity and fair dealing, tolerance and respect, and devotion to the standards and dignity of my profession. I gladly accept the obligation to use my special knowledge and expertise to serve humanity with complete sincerity.

I will strive faithfully to fulfill the solemn obligations of my profession and to govern my life and practice by its Canons of Ethics.

يمين المهندس

اتقنت وتتبينا بالارث الذي تركه اسلافنا في مهنة الهندسة ان اكرس نفسي للبحث واداء المعرفة والبحث عن الحقيقة في املاي المجتمع بما في مهنتي من فوائد وسأذل حملي ووفائي نشرها واكتسب من علمي حصة ترضي وأخذ على نفسي ان أعلم الشبان المبتعثين الى مهنة الهندسة.

وحافظت على ما أتت به هذه المهنة من رفيع المقام فانت في شأنك كل جهد في حمايتها من كل فساد ومن زوالها من المهنيين والى انكسرت على سمعة الطيبة.

واقدم للجميع بالامانة وصدق الدعاية والشفافية والولاء انتقل خدمتكم مهنة الهندسة وكرامتها. وأعد ان اضع علمي وخبرتي في خدمة المجتمع بكل مساهمة من انفسنا.

وأعد بان اقوم بكل امانات بما تقتضيه واجبات مهنتي وان اسير مسيرتي وأعمالي بموجب قانوني المهنة.

Graduating Class :

As you come to the end of your undergraduate years, your satisfaction in a job well done at A.U.B. is matched, I am certain, by your determination to have successful careers in the years ahead. Success depends partly on the talents with which a person is endowed; but it depends even more on the persistence one shows in making full use of those talents – day after day, and year after year.

Progress is rarely continuous. Every life has its ups and its downs, its failures as well as its successes. A successful man is not one who never fails, but one who profits by his mistakes and rises again, and then goes on to even greater heights.

Meet life and its problems squarely, and have no fears as to the ultimate outcome. "If one advances confidently in the direction of his dreams, and endeavors to live the life which he has imagined, he will meet with a success unexpected in common hours." These are the words of Henry David Thoreau, American Philosopher, author and civil engineer. They are just as true today as they were when he wrote them.

John B. Wilbur

Dean

"Afoot and light-hearted I take to the open road,
Healthy, free, the world before me,
The long brown path before me leading wherever I choose.

Class of 1964

Looking through the kaleidoscope of the class of 1964, one would undoubtedly see 74 different hues. Each is commonplace enough in itself but, taken together, it is the contrast that makes for interest. For instance :

There are the peanut and 'bizr' eaters in the G. E. classes
The potential noise makers
The open-eyed sleepers in the Transportation lectures
The constant late-comers
The hard-headed hallmarked mobsters
The hand-rubbing 'shakhis' enthusiasts

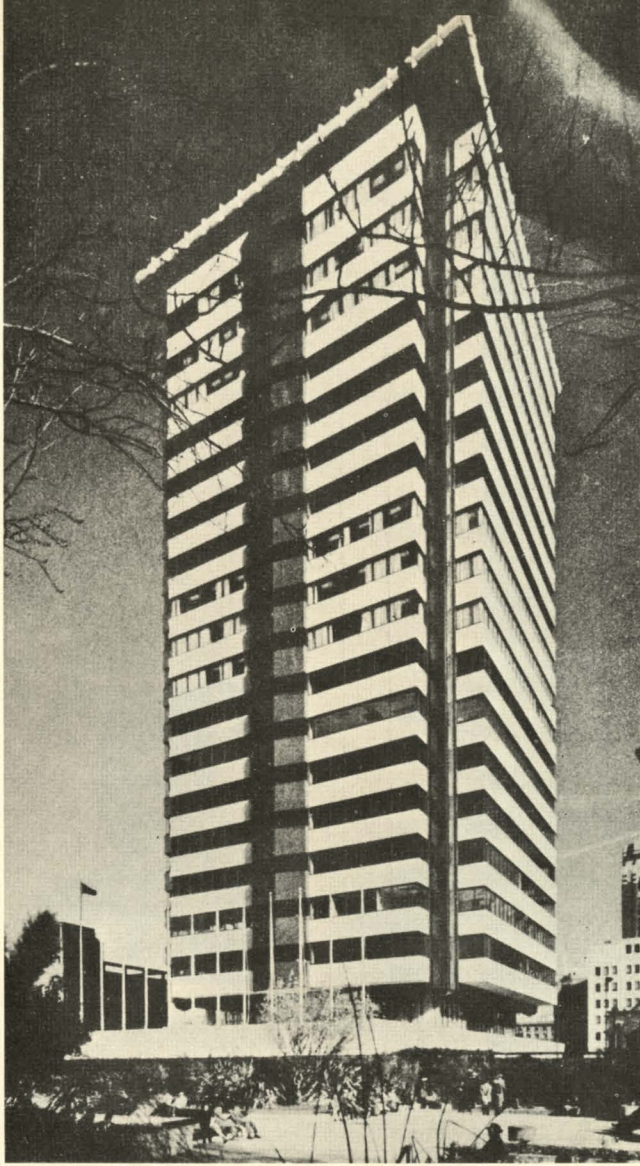

Then there are the homework doers and the homework copiers
The serious and the happy-go-luckies
The politically inclined and the politically declined
The simple and the sophisticated
The mockers and the mocked

All these are thoroughly shaken together into the huge colorful cocktail which we call the class of 1964.

There is in addition the romance of the past. Wandering through the haze of the four years, we cannot but recapture moods and memories of previous activities : the hell of the first year, the horrors of the summer camp in Mazboud, the excitement of summer training in Europe, all the cinnamon rolls gobbled up in the milk-bar, the Saturday quizzes, the assemblies, the fights and the laughter. For all their familiarity, these seem tinged with something of a mystery, an exquisite glamour.

Now that it has all ended, the brief glory of being a somebody fascinates each and everyone of us to intoxication. Our amateur dramatics have to come to a close and we must look for a better and bigger theatre : that of life.

Candidates for

the Degree of Bachelor of Architectural Engineering

RAYMOND ABU-HASHIM
Aley, Lebanon
 Show Committee, Art Sub-Committee,
 "Al-Jamia" layout manager

EFSTATHIOS KALATHIAS
Nicosia, Cyprus
 Football Major League, Track & Field team,
 Poster Committee 63-64

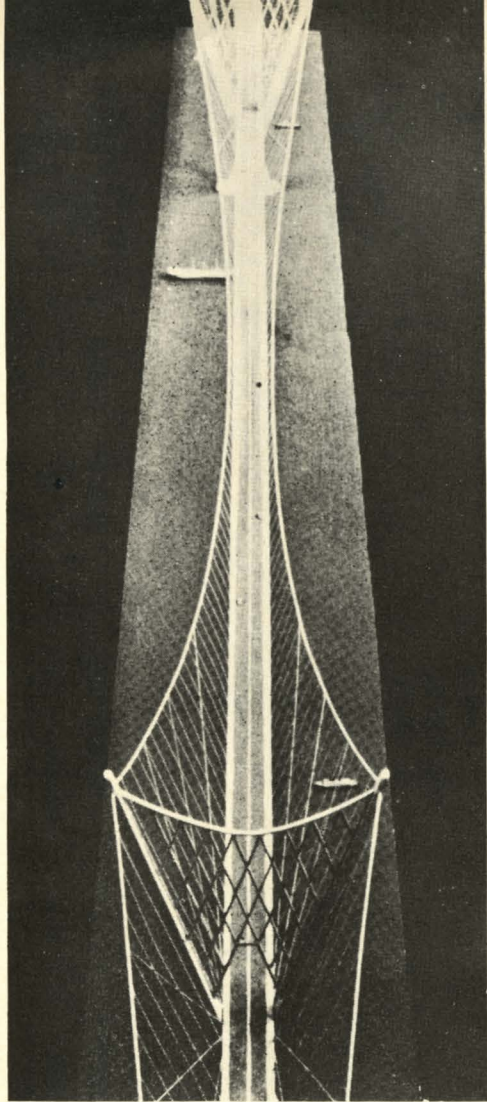

ANTOUN KHOURY
Beirut, Lebanon
 Yearbook assistant layout manager 63-64
 Art Sub-Committee 63-64
 Corporation of class of '64 - 61-62.

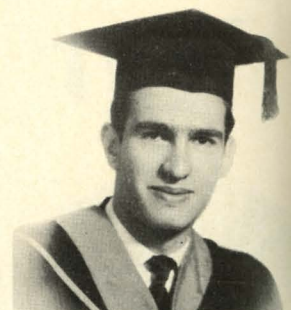

DHULFAKAR UTHMAN
Burj el Barajneh, Lebanon
 E. S. C. 61-62, Yearbook layout associate manager 63-64,
 Review layout assistant manager 63-64, Slide projection committee 62-63.

M. PERVAIZ VANDAL
Lahore, Pakistan
 Hockey 61-62, Show Committee 61-64,
 Associate Editor of "Review" 63-64,
 Chairman of Debating Committee 63-64,
 Yearbook asst-manager 62-63
 Yearbook layout manager 63-64,
 Literary Sub-committee 61-62.

Candidates for the Degree of Bachelor of Engineering Major Civil

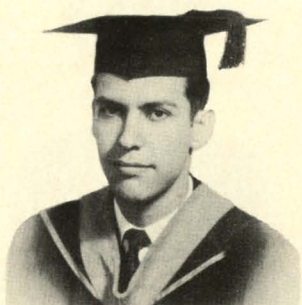

MICHEL ATALLAH
El-Metn, Lebanon
Arabic Literary Sub-Committee
62-63
Vic-President 63-64.

ISAM BADAWI
Tarshiha-Palestine
E.S.C. 63-64 ; Football Minor
league ;
Trip Committee 63-64 ; Arabic

leagues.

Last Will of the Class of '64

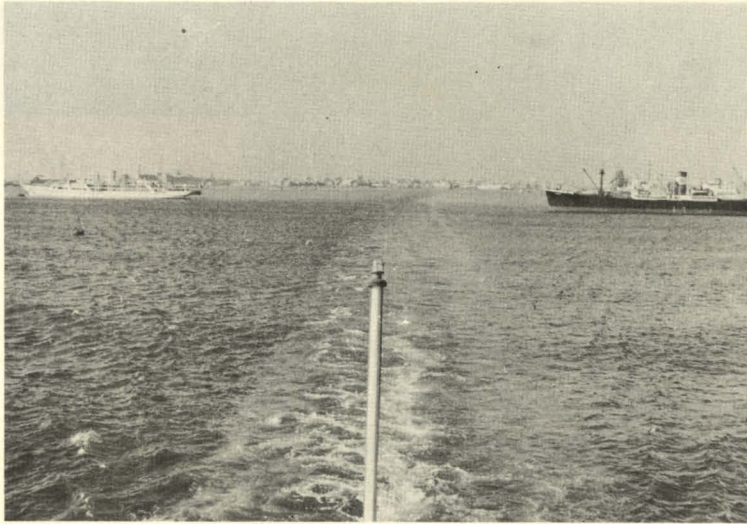

We the underthumbed, students of the class of 1964, being of soundless mind and body and of questionable mental capacity, do hereby make, publish and declare this instrument as our last will and testament.

- Samir Abdul-Hadi : I will my ardent love of politics and politicians to anyone who is willing to make sacrifices.
- Laith Shubaylat : I leave a gold embossed copy of the Eng'g Show script to the Library of Congress.
- Reza Safavian : I leave my vitamin pills and excess height to Michel Kurtabawi.
- Edward Wahbeh : I leave my proficiency in the Armenian, German, Japanese, Pakistani, and Italian languages to eloquent professors.
- Lutfi Suruji : I leave my beloved black leather jacket to the white sheep of the school to turn them black.
- Adib Kanafani : I will all my computer programs to the future, coffee-sipping, milk bar 'lazy beggars'.
- John Makhoul : I will my 'maestroism' and my well preserved vocal chords to any body who can sing.
- Tarik Bala'a : I will my slenderness ratio to all students under mental shear.
- Shater Darioush : I am giving away nothing but will sell at reduced prices : butter paper, rapidographs, triangles, scales etc. etc. . .
- Tarik Abu-Samra : I will my domineering personality and 'shawish-ship' to anyone with mustaches.
- Hagop Demirdjian : I leave my Mercury to Prof. Jouzy if he accepts the offer.
- Khaldun Haydar : I leave my machine-gun to Prof. Abi-Rached in case he needs it when results are posted.
- Samir Batchun : I reluctantly will my Petep Pan-ism to all Faculty.
- Dhulfakar Uthman : I gladly leave all the engineering faculty to future classes.
- Abbud Khair : I leave my wedding ring to Nicola Ghanim.
- Khalid Suki : I leave my right fist to Sonny Liston in case he finds it handy in his next tournament.
- Salim Mansour : I will all the lovely days I spent in Paris to all depraved underclassmen.
- Jean Kilzi : I will my ability to remain in the Eng'g school for 4 years-without committing suicide-to anyone of the lower classes who is already sick and tired.
- George Tawil : I leave my loud and rowdy ways to Prof. Ghosn.
- Naji Barbir : In a fit of generosity, I will all my personally done reports to Habib Khalifeh.
- George Halabi : I most willingly leave the editorship of the Eng'g yearbook to any one who is ready to take the trouble.
- Sami Abu-Rahme : I leave my 100-meter-dash record to Clement Thomas if he decides to take up sports for religion.
- Raymond Abu-Hashim : I leave nothing to nobody.

We hereby appoint Elias of the milk bar sole executor of this our estate.

In Witness whereof we set our thumb to this, on the thirty-first day of February, **Anno Domini** nineteen hundred and sixty-four.

Where shall we three meet again!

Heads up!

Mbassir, mbarrij!

Machine Gun Kelly and his mobsters

Thinking of his fiancée back in Kosbah

She's got accustomed to his face

Work fascinates me!

Class of 1965

Haddad, B.

With graduation appearing faintly on the horizon, the class of 1965 is still in the heat of the battle. With memories of a long hot summer in town and hopes for the coming cool one abroad, we sit on street corners counting cars, stay overnight designing concrete slabs, and sleep uncovered with the intention of falling sick on quizdays.

A certain feeling prevails among us – a feeling of satisfaction. For having endured so much in the past three years, the taste of our partial victory makes us confident and mature. It is with such confidence and maturity that we stand ready to usher in the coming year.

Mazboud Patrol

Mazboud, My Love

Upon reflection on the days spent in Mazboud, several aspects and events stand out in one's memory :

The early morning lectures were frowned upon by all of us, and judging from the dim look on the lecturer's face one could tell he was a fellow sufferer. The field work, although at times painstaking, was for the most part a pleasant endeavour.

As for the food, there were no complaints for the first few weeks, but having the same food week after week was not quite to our liking. When we started complaining of running stomachs the administrative corps accepted the possibility that some of the food was extra-hygienic. But the routine was not broken and running stomachs kept running.

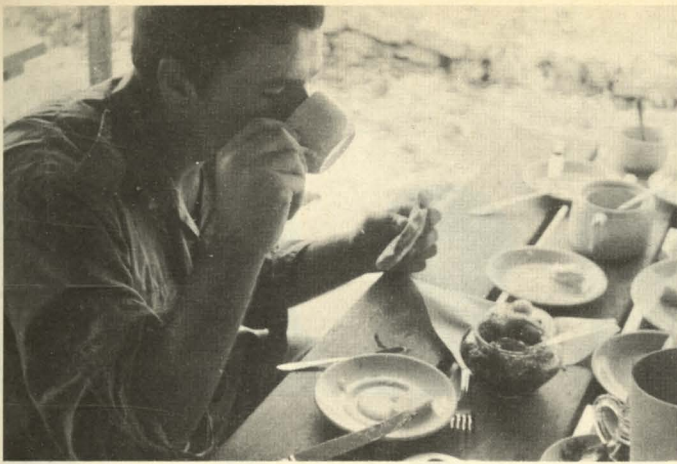

Sometimes matters came to a head in the tents where one party wanted lights off while the other was indulging in a game of « Tarnib », a favourite pastime at the camp.

Mazboud, a pleasant experience? For many of us yes, but it is one pleasant experience none would want to repeat.

Class of 1968 - Architecture

This year the Faculty of Engineering started a new five-year program leading to the degree of Architecture. This will ultimately replace the program which now leads to the degree of Bachelor of Architectural Engineering.

In this new program, a serious attempt is being made to broaden and enrich the educational background of the student. Emphasis will be put on both the theoretical and the practical aspects.

Despite the longer way which lies ahead, the greater affinity to the school which they will have to exercise, and the awkward feeling of being guinea-pigged, the five-year-architects are at no disadvantage. They will have the unprecedented privilege of three summers of professional training in architectural firms.

Admire but do not touch

"Lay me on an anvil, O God.

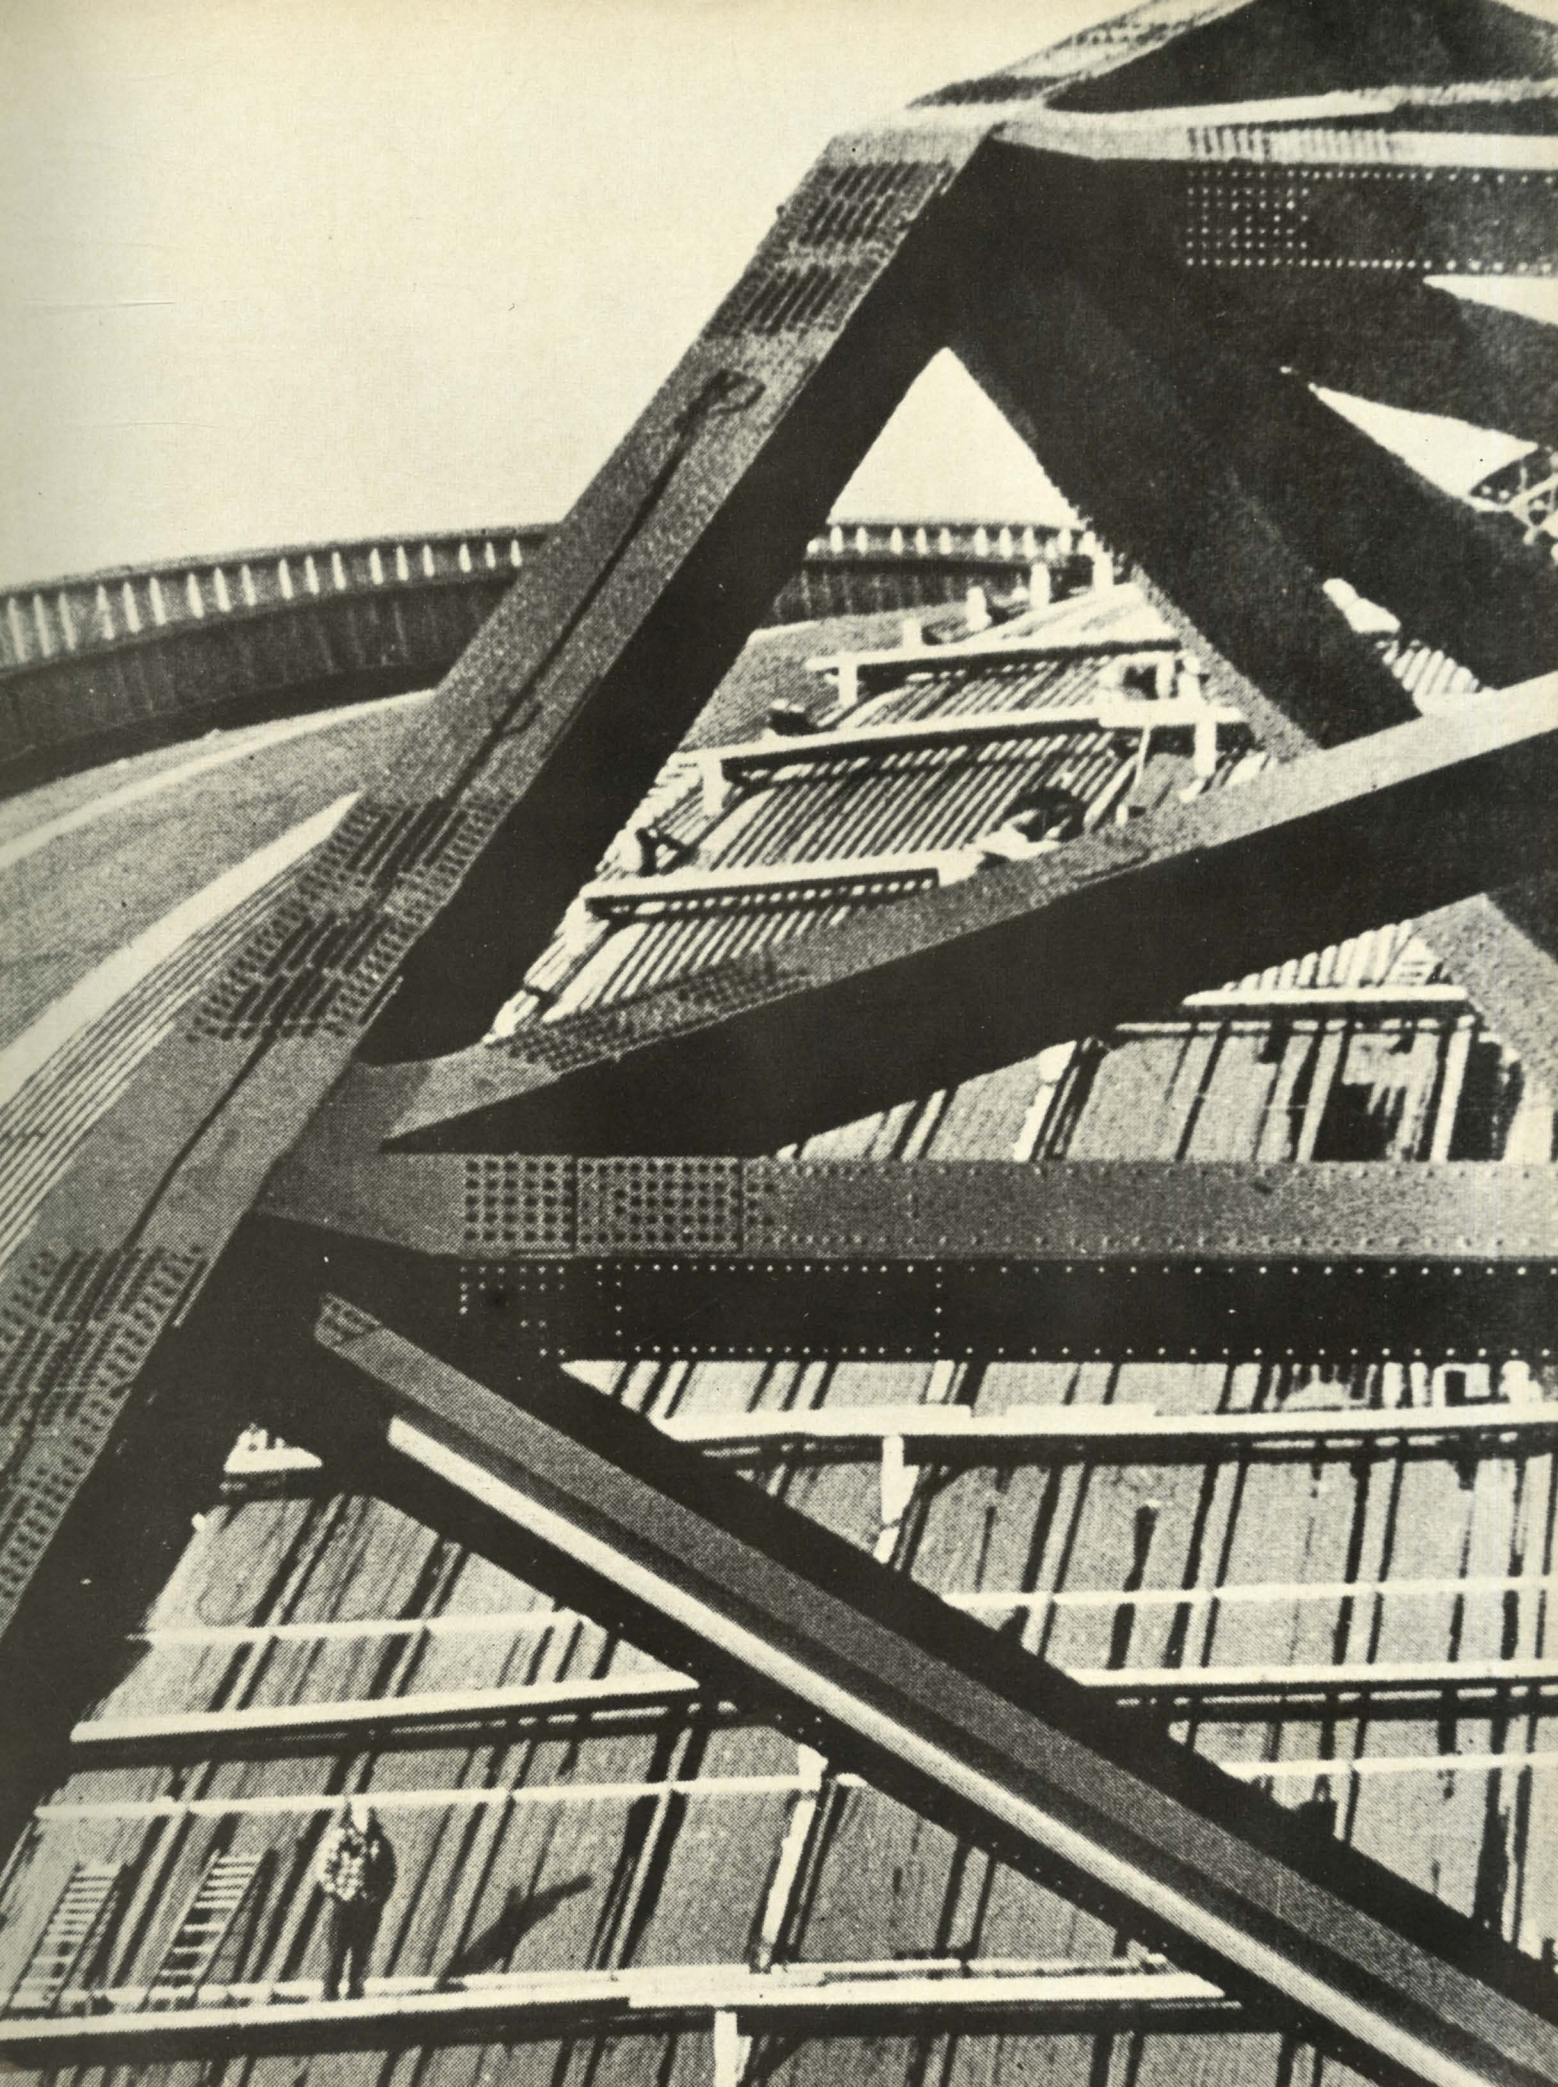

Beat me and hammer me into a steel spike.

Drive into the girders that hold skyscrapers together.

Take red - hot rivets and fasten me into the central girders.

Let me be the great nail holding a skyscraper through blue
nights into white stars" .

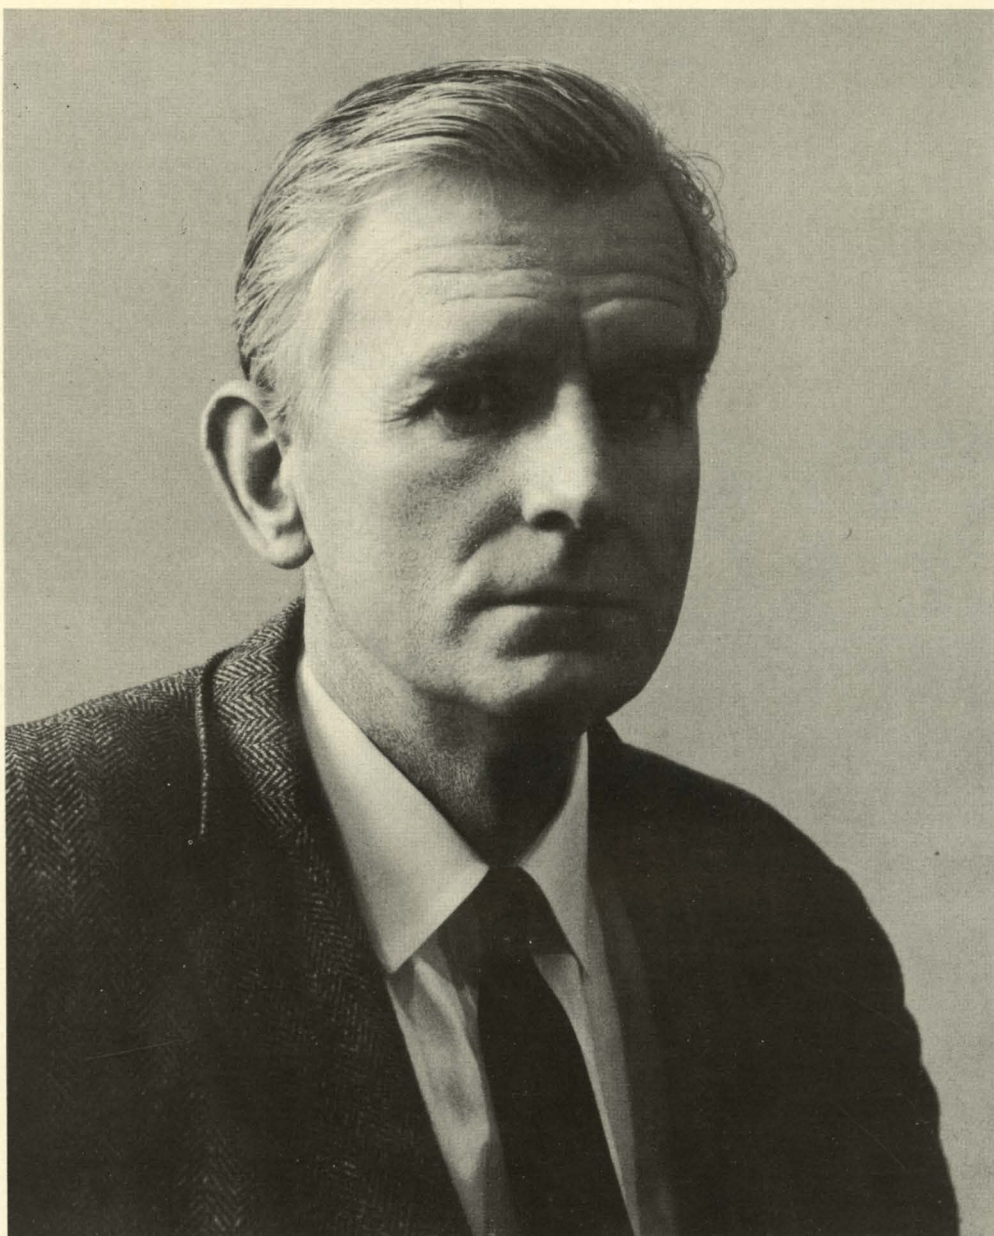

School of Medicine

SAMUEL B. KIRKWOOD – M. D. Harvard University; D. Sc. Macalster College.
Dean of the Faculties of Medical Sciences.

JOHN L. WILSON – M. D. Harvard University. Acting Dean of the School of Medicine.

To the Graduating Class :

We of the Faculty offer sincere congratulations and warm good wishes for your future. It has been a privilege for us to associate with you during the past five years. We hope that you will always look back on your undergraduate days as a happy fulfillment of your expectations and needs. We know that the friendly bonds between yourselves and with your teachers will be a lasting source of strength because they were forged in an atmosphere of serious endeavor and common purpose.

You will soon be thoroughly convinced of what you already suspect : medical school is merely the introduction to your profession and change is the only constant in the scientific world. Each of us is challenged daily to adapt, judge, learn and unlearn. Our medical knowledge lies always in the shadow of obsolescence. Therefore, an important goal has been to help you to develop the quality of mind to remain a perpetual scholar and inventor.

We anticipate your unselfish devotion and personal satisfaction in a medical career. Certainly the opportunities for service which await you are unlimited. You will now be seriously confronted for the first time by the economic and social problems of medicine. They deserve your special attention because, as a physician, they become your responsibility. You are no longer a free agent. You have earned your place as a vital and priceless resource of the community.

الله معكم

John L. Wilson

Some Aspects of the History of Our Medical School*

The American Board of Foreign Missions began operating in the region known as Lebanon, Syria and Palestine in 1820, and by 1860 had established 33 schools. In 1862 Reverend Daniel Bliss was asked to withdraw from evangelical work to found a school of higher learning which would include medical training. Accordingly, Dr. Bliss traveled to the USA, and on April 24, 1863, the State Of New York granted a charter for the new school which was to be known as the Syrian Protestant College. Dr. Bliss was appointed president of the college which opened in the autumn of 1866 with a class of 16 students, and the medical school opened the following year with a class of fourteen students.

The early history of the medical school is inseparable from that of three outstanding professors who helped found the school in 1867 and guide it during the first 15 years. These three men were Dr. Cornelius Van Dyck, an outstanding Arabic scholar, who taught chemistry, pathology, internal medicine and ophthalmology; Dr. George Post was a great surgeon and taught botany, and materia medica; Dr. John Wortabet, born in Lebanon, taught anatomy, physiology, public health and the practice of medicine. Each of these three unusual men gave full time to the teaching of a 4-year medical course, at first in Arabic, so each translated medical texts and lectures into Arabic.

The 97 years of growth and development of the medical school have not been without crises. In 1882 Professor Edwin Lewis gave a commencement address favoring the theories of Darwin. The board of trustees and the non-medical faculty were so offended that Professor Lewis was forced to resign. All the full-time members of the medical faculty joined with their resignations except for Dr. Post. Many of the medical students also rebelled and were temporarily suspended. So it appeared that the career of the flourishing young medical school might suddenly be brought to an end, but three new professors arrived in time for the opening of the academic year 1883-84. Thus the medical school weathered its first serious crisis. A significant side effect, however, was a change in the language of instruction from Arabic to English, because the new professors did not know Arabic and did not have time to learn it before beginning their duties.

The 1914-18 war presented the medical school with another crisis, but the school continued under great difficulties in spite of being an American institution within alien territory. The Turkish leader Jamal Pasha was favorably impressed when he found graduates of the medical school willing to serve the typhus wards and in the front-line dressing stations. It was he who refused to permit the school to be closed when America entered the war, and 32 medical graduates gave up their lives in active service during the war.

Following the war renewed interest in the university and its medical school was taken by the trustees and many supporters. The new countries of Lebanon, Syria, Iraq, Palestine and Transjordan looked to the university to train leaders in every field of public life.

Changes of time had caused the name Syrian Protestant College to become outmoded, so the board of regents of New York State amended the charter on November 18, 1920, and the institution became known as the American University of Beirut.

It was during this post-war period that the Rockefeller Foundation, and others, began their continuing guidance and assistance with periodic grants which have enabled the medical school to improve its physical plant and teaching staff. Another generation of leaders joined the faculty at this time, including Drs. William Cruikshank, Edward Turner, Bennett Avery, William Shanklin, Stanley Kerr, and George Miller.

The Second World War presented the institution with yet another crisis. The people of the region and the occupying power again derived benefits from the medical school, not only through medical services rendered, but also from the production of vaccines by the bacteriology department upon which the government had long relied.

Increased tensions were experienced by the university during and following the partition of Palestine in 1947-48, the Suez crisis in 1956, and the Lebanese political crisis in 1958. However, these events did not affect the medical school, for its students again showed a high degree of maturity and the faculty members effective leadership.

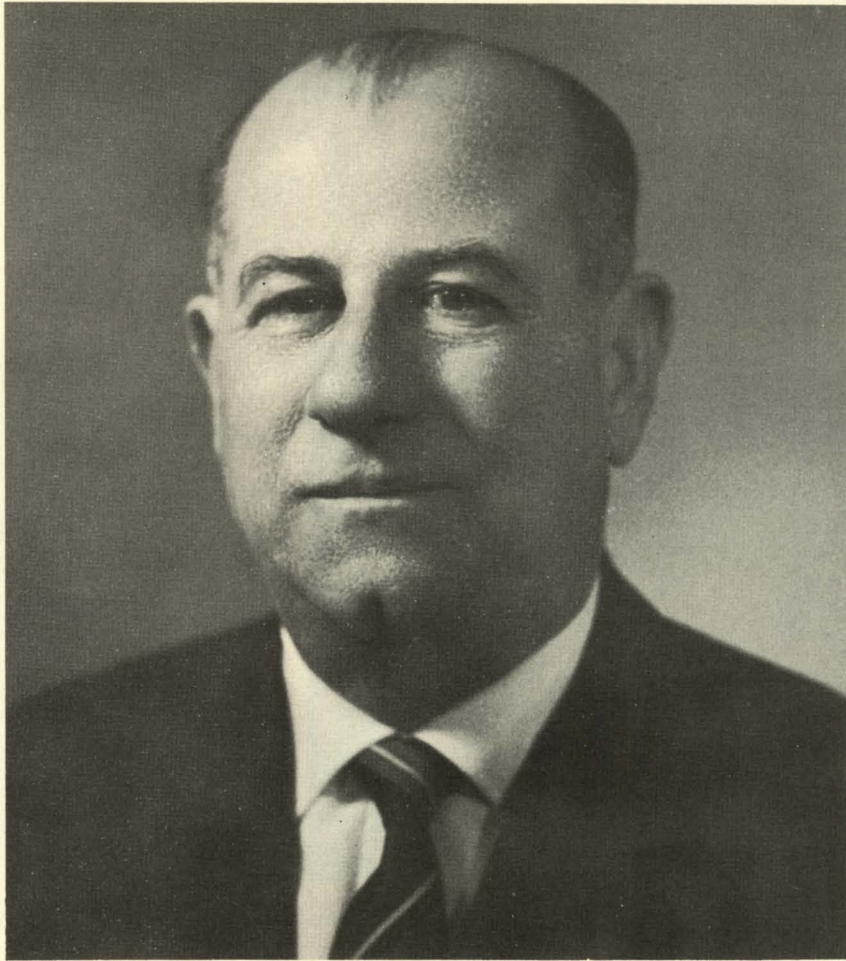

Now, the medical school stands high among the faculties of AUB and the medical schools in other parts of the world. It offers the medical student 5 years of higher learning and professional training. During the first 2 preclinical years, the student is taught courses in basic sciences including Anatomy, Histology, Physiology, Biochemistry, Bacteriology, Parasitology, Pathology, and Pharmacology. In the last 3 years he works in the hospital and the outpatient department, and he graduates, at the end of 5 years, having developed and mastered the art of dealing with and healing the sick.

Candidates for the Degree of Doctor in Medicine

I SWEAR to consider dear to me as my parents him who taught me this art to prescribe regimen for the good of my patients according to my ability and my judgment . . . to preserve the purity of my life and my art... to keep secret and never reveal all that may come to my knowledge in the exercise of my profession . . . which ought not to be spread abroad . . .

If I keep this oath faithfully, may I enjoy my life and practice my art, respected by all men and in all times.

THE MEDICAL STUDENTS SOCIETY
of
THE AMERICAN UNIVERSITY OF BEIRUT
presents this
HONORARY CERTIFICATE
to

MEDICINE

in recognition for his devotion to
M. S. S.,
and as being one of
its most
active members.

President.

Advisor.

Secretary.

Dean of the Medical School

Date.

The M. S. S. Honorary Certificate

The following Medical Students were awarded the M. S. S. Honorary Certificate for the year 1963 – 1964, during the M. S. S. Anniversary Night, in recognition of their many extracurricular activities in the Society and for helping make M. S. S. one of the leading and most active societies on campus :

William Nahhas

Faysal Najjar

Suhayl Uthman

School of Nursing

Miss ESTHER L. MOYER, B. S., M. A., Post Master Study in Administration of Collegiate Programs in Nursing. Director of School of Nursing. Associate Professor.

Congratulations to each of you on the completion of your basic program of study in nursing! You join more than seven hundred graduates of our diploma program and thousands of other colleagues in the health professions in the privilege and obligation of helping mankind improve his health to the highest possible level.

Graduation marks the commencement of your career in nursing. The needs of society require that well prepared nurses make their maximum contribution to nursing services as professional practitioners, family members and enlightened citizens. To your life-long quest for greater knowledge and skill may you add that moral commitment to excellence which is concerned not with things as they are but as they can and ought to be. With Whitehead may you hold "the habitual vision of greatness." Our best wishes for real happiness and deep satisfactions go with each of you.

Esther L. Moyer

The Nightingale Pledge

I solemnly pledge myself before God and in the presence of this assembly : to pass my life in purity and practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous and will not take or knowingly administer any harmful drug.

I will do all in my power to elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping, and all family affairs coming to my knoweldge in the practice of my profession.

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

School of Pharmacy

AMIN F. HADDAD, M.S. ; Director, School of Pharmacy

On the happy occasion of your graduation I take great pleasure in extending to you, on behalf of your teachers and myself, our hearty congratulations and welcome you to membership in an ancient and dedicated profession. The diploma you received at commencement is symbolic of responsibility. It represents a promotion from the world academic to an over-expanding world of challenge and service.

At this stage of your professional career I like you to remember that your school training is only the prelude and that your success later in life rests upon your ability : to put into practice the ideals and principles you formed during your university days, to develop your professional capacities for which you were trained in the School, to practice the virtues and traits of pharmacy as described in its codes of ethics, to understand your fellowmen, to contribute to the intellectual, social and spiritual life of your community, and most essentially to keep abreast with the scientific advances in your profession and the other health professions. How well you will accept and meet these obligations will be the determining factor of your position in your profession and in society at large. May your future accomplishments bring honor to you, to your profession and to your School.

With this short message we send you forth from our midst with affectionate good wishes from us all. May fortune and happiness smile on you always.

A. F. Haddad

Pharmacist's Oath

I solemnly promise in the presence of God, who is the source of all life and health, that I will endeavor to be true to this declaration.

I acknowledge the debt I owe to generations of devoted leaders whose labor, wisdom, and sacrifice through the ages past have made possible the science and art of healing with its standards of high character and service. I acknowledge that in entering this profession I inherit an obligation of service for the conservation and restoration of the health of mankind.

I will practice my profession in loyalty to its principles of fairness, scrupulous honesty, and helpful service.

I will treat the poor with every consideration, and will give them their medicines for the least possible sum.

In filing a prescription I will not substitute one drug for another.

I will obey the laws of the country concerning the practice of my art. I will not supply, except on prescription, those medicines which it is forbidden to sell without a prescription.

I will not try to cure the sick by representing myself to be a physician.

Should I be asked to give a deadly medicine, I will refuse, and I will not suggest the use of such medicine. I will not give an abortive except on the prescription of a reliable physician.

In times of epidemics I will not allow fear of personal ill to drive me from my post of duty.

With purity and with uprightness I will endeavor to pass my life and practise my art.

Whether in connection with my professional practice or not, whatever I see or hear in the life of men which ought not to be spoken of abroad, I will not divulge, as reckoning that all such matters should be kept secret.

While I continue to keep this oath inviolate may it be granted to me to enjoy life and the practice of the art respected by all men, in all times.

ANNUAL REPORT

The Pharmacy Students Society has celebrated its 31st anniversary this year. Since its foundation in 1933, it has been one of the active societies on the A. U. B. Campus.

The Cabinet of the Society was elected in May 1963. It was constituted as follows :

Faculty Advisor	-	Mr. Uthman Kanafani	
President	-	Mr. Yacub Susu	Pharm. IV
1st Vice President	-	Mr. Muhammad Sh. Amanat	Pharm. IV
2nd Vice President	-	Mr. Abdulrahman Abdulrahman	Pharm. II
Secretary	-	Mr. Anwar Bikhazi	Pharm. III
Treasurer	-	Mr. Hampartzoum Karageozian	Pharm. III
Member	-	Mr. Kevork Jabejian	Pharm. IV
Member	-	Mr. Abdul Riza-Kasra Amirjahed	Pharm. III
Member	-	Mr. Abdallah Kafina	Pharm. II
Member	-	Mr. Issa Hanna	Pharm. I

The Cabinet of the Society inaugurated its activities for the year by regarding a traditional Opening Reception, held in honor of the First Year Pharmacy students. In this reception each new student was officially initiated as an active member by being decorated with the pin of the Society. This activity was followed by an acquaintance trip to Jeita Cave and Fawwar Antelias, Lebanon, in order to create a friendly atmosphere of introducing all members of the Society to each other.

The Society tried to encourage social, cultural, professional, and athletic opportunities among the students through film shows, lectures, general knowledge contests, trips, and parties.

The following is a list of some activities sponsored by the Pharmacy Students Society during the academic year 1963-64 :

1. October 18, 1963 - Opening Reception, Mary Dodge Hall, A. U. B.
2. October 26, 1963 - Trip to Jeita Cave and Fawwar Antelias, Lebanon.
3. November 7, 1963 - Two film shows, Pharmacy Building.
 - a. Yellowstone National Parks (color).
 - b. Highway to Hawaii (color).
4. November 21, 1963 - Two film shows, Pharmacy Building.
 - a. Centers of Learning (color).
 - b. Land Below the Sea (color).
5. November 21, 1963 - Grand Masquerade Party, Mary Dodge Hall, A. U. B.
6. December 14, 1963 - Christmas Party, Dale Home, A. U. H.
7. February 23, 1964 - Trip to the Cedars, Lebanon.
8. March 11, 1964 - Lecture by Visiting Prof. Rex Call, B. A., A. U. B.
9. March 26, 1964 - Easter Tea Party Dale Home, A. U. H.
10. March 16, 1964 - Lecture by Visiting Prof. Rex Call, B. A., A. U. B.
11. April 1, 1964 - Interclass General Knowledge Contest, School of Pharmacy.
12. April 11, 1964 - Annual Pharmacy Ball, Mary Dodge Hall, A. U. B.
13. May 12, 1964 - Interclass General Knowledge Contest.
14. May 18, 1964 - General Business Meeting.
15. May 20, 1964 - Individual General Knowledge Contest.
16. May 23, 1964 - Beach Party - In Acapulco, Lebanon.
17. May 25, 1964 - Election of New Cabinet for the year 1964-65, School of Pharmacy.
18. May 25, 1964 - General Business Meeting, A. U. B.
19. May 30, 1964 - Farewell Reception, Mary Dodge Hall, A. U. B.

The **Pharmacy Students Society** is the oldest society on Campus still in existence (founded 1933). Also it is the first society that ever published the school yearbook, the *Apothecary*, the first issue of which came out in 1946.

Second Pharmacy Seminar^{*}

The Second Pharmacy Seminar organized by the School of Pharmacy for its graduates was held on Saturday, May 11 and Sunday May 12 at the Alumni Club. A good number of Pharmacy Alumni from Lebanon, Syria, Jordan, Kuwait, Ethiopia, and Saudi Arabia participated.

The opening session was held at 9:15 a. m. on Saturday. The Director of the School of Pharmacy, Professor Amin Haddad introduced Dr. Samuel Kirkwood, Dean of the Faculties of Medical Sciences who welcomed the participants and spoke of the important role the pharmacist plays in the fight against disease. Dean Kirkwood then stressed the importance of the ethical principles on which is based the professional practice of pharmacy.

The lecture sessions were held at hourly intervals with a coffee break in between. Six lectures were given in the following order: "Factors Effecting Drug Stability" by Prof. A. Haddad; "Aerosols" by Prof. M. Harrison, followed by a film; "New Drugs from Plants" by Prof. C. Abou Chaar; "Anabolic and Androgenic Hormones" by Prof. L. Karamanukian; "Biochemical Approach to the Study of Disease and Therapy" by Prof. I Durr; and "Mental Illness, Etiology and its Treatment" by Prof. R. Dajani.

On Saturday evening a dinner was held in honor of Dean and Mrs. S. B. Kirkwood. Also present was Mr.

A. S. Crawford, Vice President of the University. Immediately after the dinner a documentary film about Lebanon was shown through the kind courtesy of the Middle East Airlines. On the same evening the Pharmacy Students Society held its Annual Ball which was organized for the occasion. Among the many attractions and activities the election of Miss Pharmacy for 1963 took place. Miss Chaké Kouyoumjian was elected.

On Sunday afternoon a visit to the School of Pharmacy was organized to view the machinery and equipments recently acquired by the School. This activity was conducted by Mr. Uthman Kanafani, Miss Yeranouhi Kouyoumjian, and Miss Chaké Kouyoumjian with the cooperation of the graduating class.

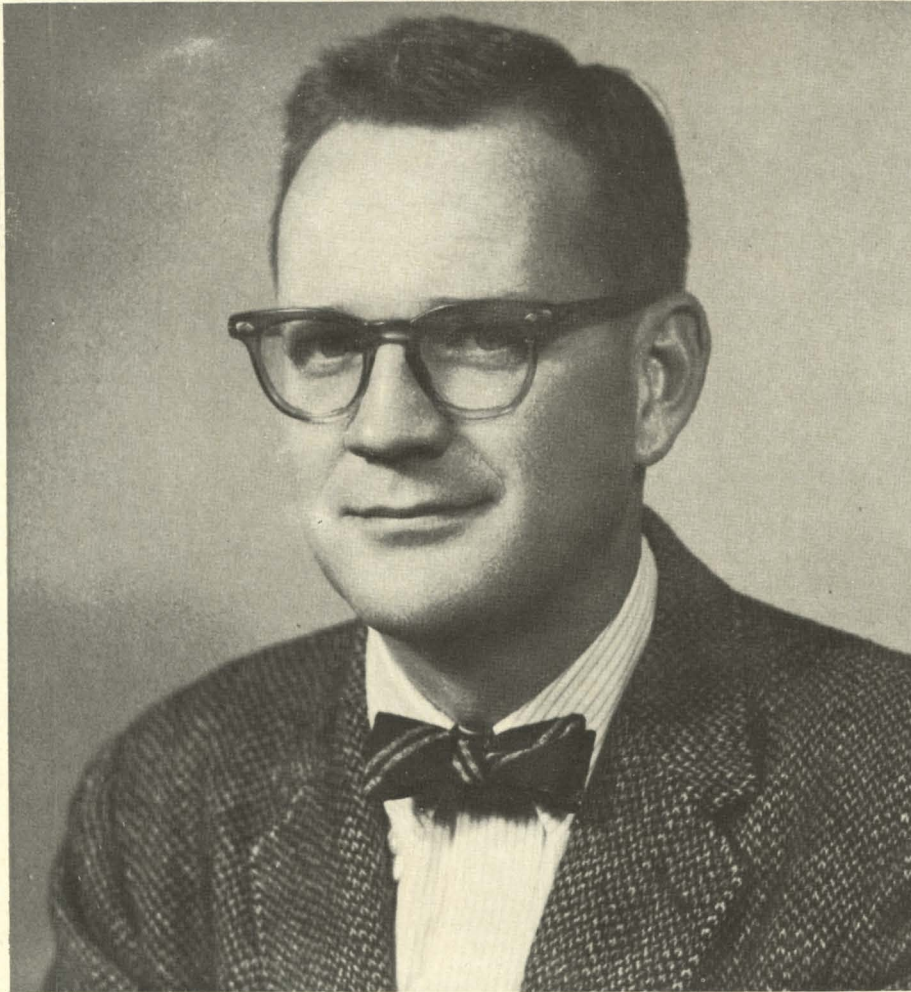

* Since the Second Pharmacy Seminar was held at the time when the University Yearbook, "Campus 63" was in press it was not possible to include this activity among those of 1962-1963.

School of Public Health

CRAIG S. LICHTENWALNER, M. D., M.P.H., Director of School of Public Health

To the Class of 1964, School of Public Health

As one chapter in your careers as health workers ends, another is begun. You have now completed a short but intensive program of studies, and soon you will go forth to serve your countries and your fellow men.

Not all of your time has been spent in studies. You have enjoyed the recreational and cultural advantages of the campus, of Beirut, and of Lebanon. Furthermore, you have lived and worked harmoniously with students and faculty from many different nations. I hope that you will prize this experience in mutual understanding and tolerance as a practical demonstration of citizenship which you will remember and practice wherever you go.

The faculty and staff of the School of Public Health join me in congratulating each of you on having completed your courses, and in reminding you that health workers everywhere have a common goal — the attainment by all peoples of the highest possible levels of health. In striving toward this goal, you will embody the purpose and the spirit of the American University of Beirut: "That they may have life and have it more abundantly".

Olawoye, E.

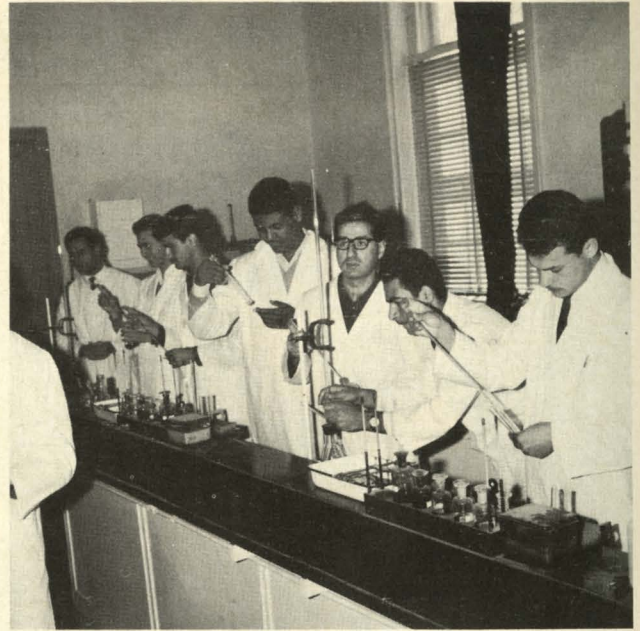

Recent studies in the School of Public Health have disclosed the first known focus of schistosomiasis in Lebanon. As part of country-wide survey, graduate students in Tropical Health collect and identify snail vectors of schistosoma heam-atobium from an irrigation ditch.

Research on hydatid disease in the Department of Tropical Health has been partially directed to the chemical fractionation and characterization of diagnostic antigens. Here mucopolysaccharide fractions isolated from hydatid cyst tissues are being separated by a staff member and a graduate student for assay against an international standard reference serum prepared for the World Health Organization.

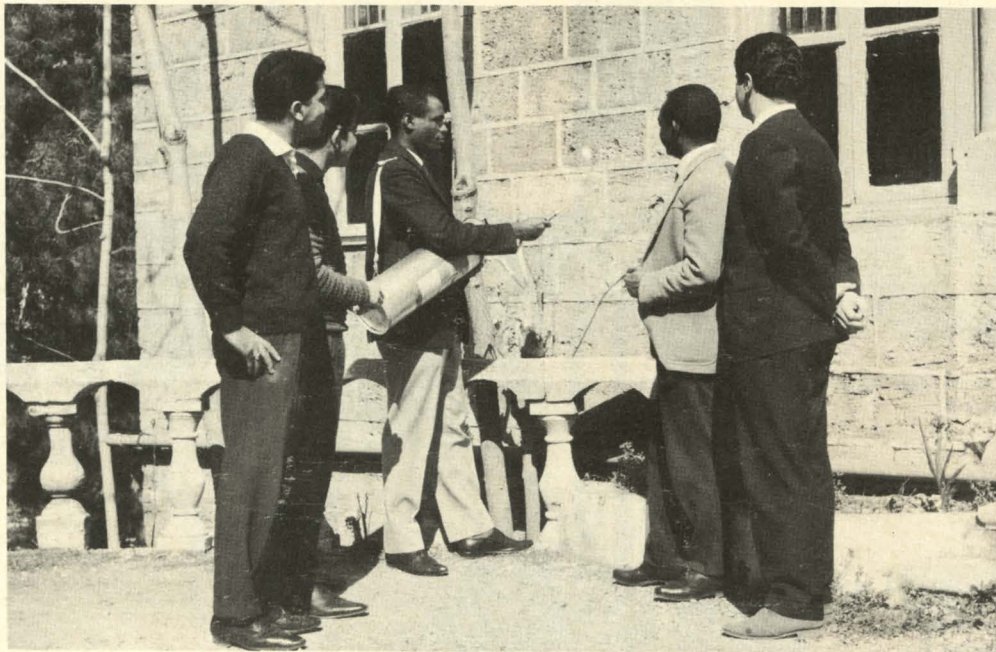

Well young ladies, you start like this.

Just posing for the Yearbook!

"You hold the sprayer like this", Says Mr. Tebebu.

Would you all stay in your positions please.

What a performance, they are all stunned by it!

Athletics

ABED TARABULSI, Director of Physical Education.

Hail ! Mighty athletes of A. U. B.

Hundreds of cups and medals, in gold and silver, we give to glorify you. We, President, Deans and professors, stand by to clap and congratulate you. We glorify our athletes for in that we glorify health, beauty and good character.

Hail ! Mighty athletes of A. U. B.

Your glory is written upon your foreheads with radiant letters whose ink is from the pure waves of the wind and whose color yielded to you from the rays of the sun. Let it be known to you, Mighty athletes, as it is known to us from the story of our yesterday, that the hidden spring of Mother Earth's love is at your doorstep.

May fair play light your road in your comings and goings. You must not forget that the important thing in the game is not winning, but taking part ; likewise, the essential thing in life is not conquering, but fighting well.

In the year 1963-'64 we had a wider participation of students in sports and a better sportsmanship spirit. The number of the games played by our Varsities and Intramural Unit Teams increased enormously in the past year as compared to the preceding years.

The Varsity Teams played many games against the teams of other universities, some sport clubs, and the teams of some companies. Our Varsity Football, Basketball, Volleyball, and Tennis teams were again invited to Kuwait to play against Kuwait Oil Company teams. Our Varsity Tennis team was also invited to Cairo by Shamis University.

Our Athletic Department pays particular attention to the Championship Games played between different teams in our university. These games result in the participation of a high number of students, and also a closer friendship between the students of different Schools and Classes. In the past year the University Championships in football, basketball, and volleyball were contested by the following 13 units : Agriculture, Engineering Lowers, Engineering Uppers, Freshmen Fridays, Freshmen Mondays, Freshmen Thursdays, Juniors, Medicine, Orientation, Pharmacy, Public Health, Seniors, and Sophomors.

Our Women's Championship in basketball and volleyball were contested by 4 teams : Freshmen, Nursing, Pharmacy, and Upper Classes of Arts & Sciences.

Challenge Games between different schools are perhaps the most interesting games played in A.U.B. The winners of these games usually win cups. In the past year we had many spectacular Challenge Games in different fields.

VARSITY FOOTBALL TEAM

First Row : A. at-Tum, N. Mavrovouniotis, V. Matta, G. Lambrou, F. Muhammad Salih, R. Shatila. Second Row : A. Karayu, V. Lampaditis, M. Humaydah, A. Ghermazion, L. Shubaylat, C. Panayi, K. Muhammad, M. Jawish.

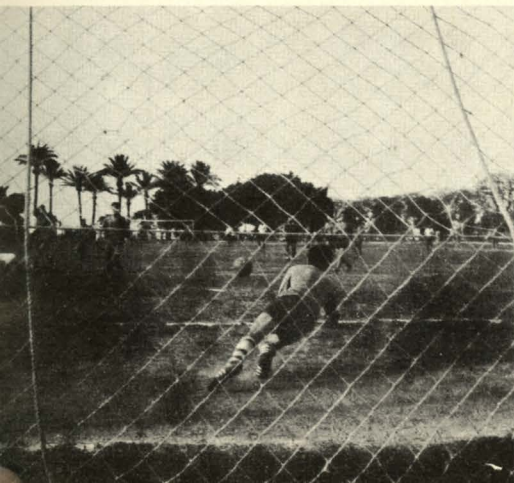

FOOTBALL

In the past year our Varsity downed quite many teams. The results of the games that we lost and only of the interesting games that we won are tabulated.

Seniors won the Football Championship of A.U.B. The second medal was won by Engineering Lowers team. The winner of the third medal will be known after a match between Agriculture and Orientation teams; the loser will take the fourth place. The fifth and the sixth highest scores were achieved by Sophomore and Freshmen Fridays, respectively.

Interesting games attract the President and Deans.

THE RECORD

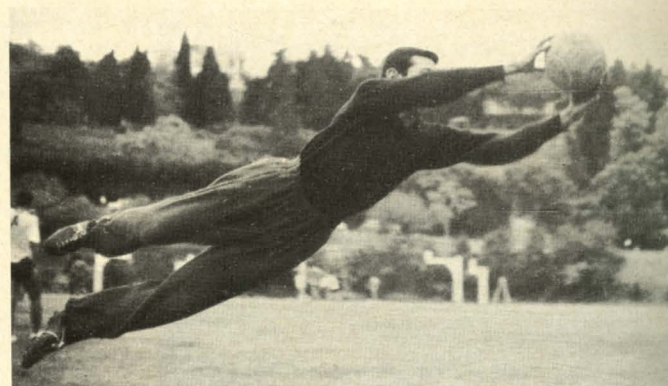

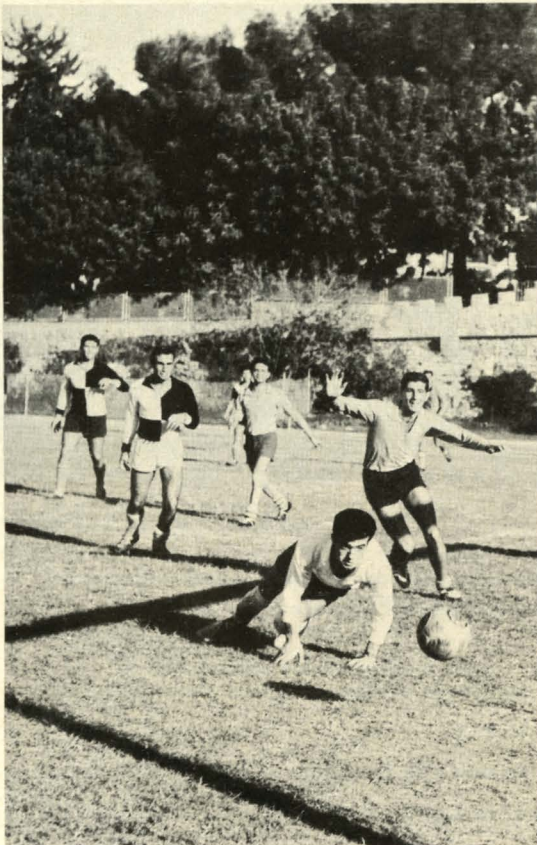

A. U. B.	Opponent	Opponent
5	University of Seven Seas	1
1	M. E. A.	4
6	Kuwait Oil Company	2
5	Arab University	1
2	M. E. A.	2
2	Robert Academy	0

Our football challenge games, especially the one between Arts & Sciences and Engineering, are most spectacular. On December 7, the first Challenge Cup game was won 6-4 by Arts & Sciences. On the same day Agriculture defeated Medical Sciences in a Challenge game by 3-0. In the second set of Challenge games which were played on April 18, again Arts & Sciences won Engineering 3-2, and Agriculture downed Medical Sciences 4-0.

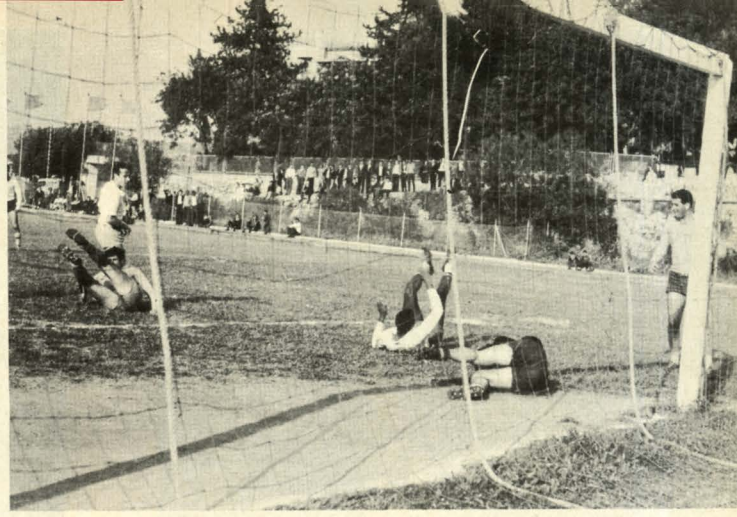

SENIORS FOOTBALL TEAM, the Champion Team of A.U.B.

- First Row* : A. Ghermazion, A. F. al-Faki, B. Simidian, J. Missirian.
Second Row : A. at-Tum, A. Fakhru, C. Christofides, V. Susu, M. Muhammad Aly
 F. Kanan, Prof. Tarabulsi (Director of Physical Education).
Absent : A. Awalom, D. Gardellis, B. Tesfaye.

Aggies won the Challenge Cup by beating the Medical Sciences team.

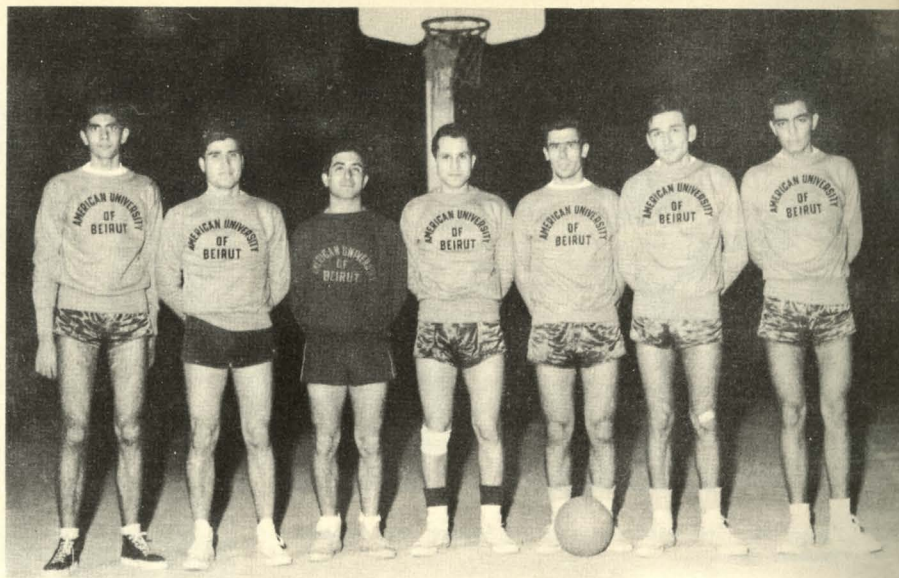

Despite the defensive efforts of Engineering players Arts & Sciences team won the Challenge Cup.

Mavro couldn't reach this ball, but he broke up many scoring attempts of "Artsies".

VARSITY BASKETBALL TEAM

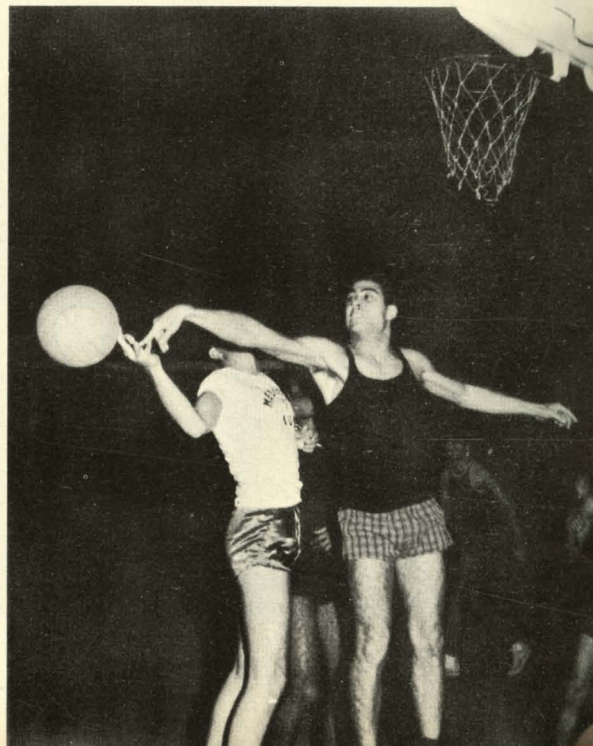

M. Shihab, A. Somerville, V. Nadjarian, S. Karmi, V. Lampaditis, G. Umari, N. Mubassalah.

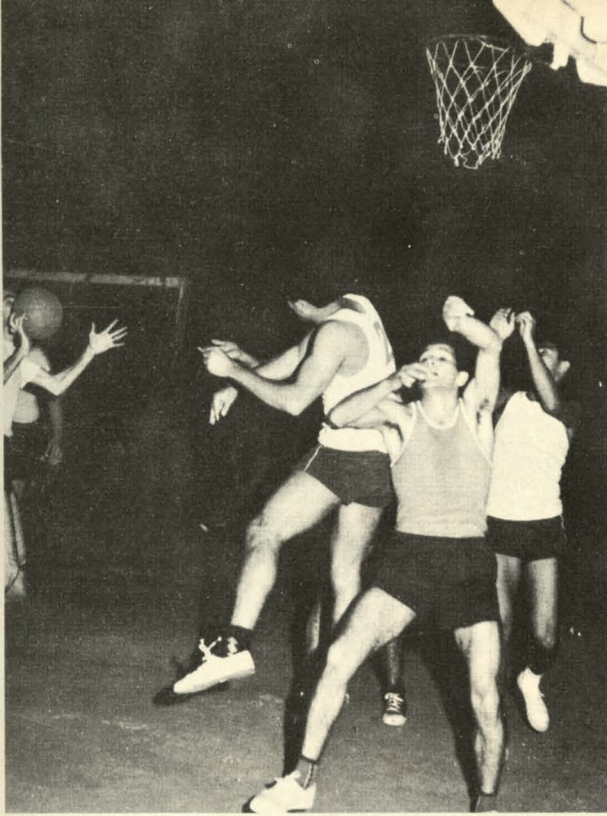

BASKETBALL

Our Varsity downed Kuwait Oil Company team, Ghouta Club, and Arab University, but lost to Fityan and Homenetmen.

THE RECORD

A.U.B.		Opponent
35	Fityan	46
42	Homenetmen	52
32	Kuwait Oil Company	23
42	Ghouta Club	41
83	Arab University	27

The Basketball Championship of A.U.B. was won by Medicine. The second and third medals went to Sophomors and Engineering Loweres, respectively. Engineering Uppers, Freshmen Mondays, and Freshmen Fridays had the fourth to sixth standings.

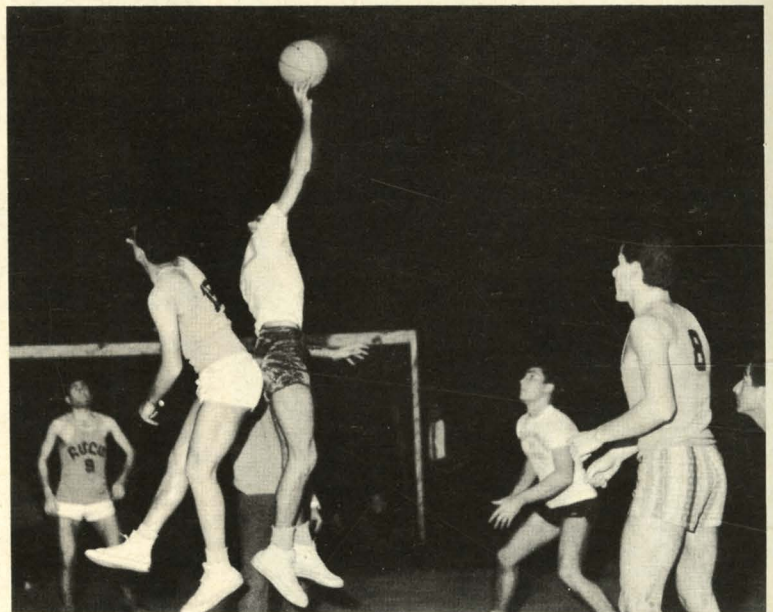

Upper Classes of Arts & Sciences won the Women's Basketball Championship. The second and third teams were Nursing and Freshmen, respectively.

In Challenge Cup games Engineering downed Arts & Sciences 30-29, but lost to Medicine by a heartbreaking score of 42-40.

MEDICINE BASKETBALL TEAM, the Champion Team of A.U.B.

First Row : S. Sanjad, M. K. al-Yusuf, S. Mimari, N. Didizian. Second Row : Z. Hawwa, I. Shammass, T. Chaglassian, Prof. Tarabulsi (Director of Physical Education), S. Harik, Dr. S. Najjar (the advisor of the team). Absent : S. Karmi.

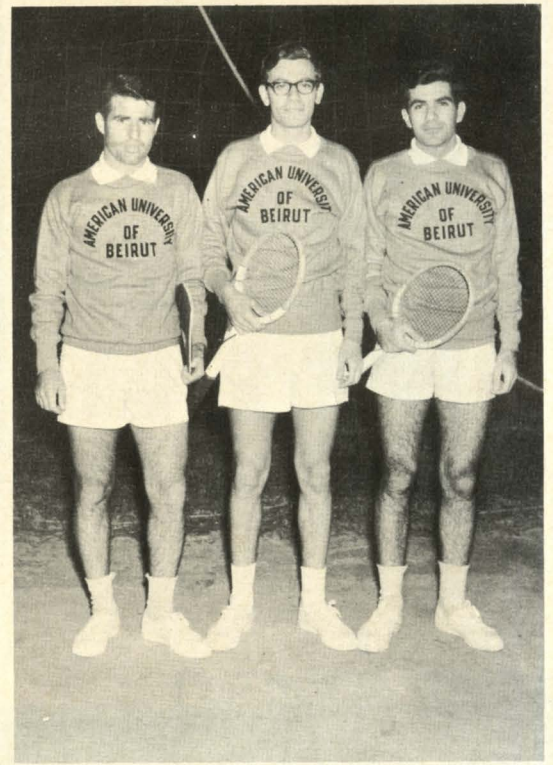

TENNIS

Karim Fawwaz displays a powerful shot.

Karim Fawwaz, the Captain of our Varsity Tennis, is an outstanding tennis player. He is the Champion of A. U. B. and also of Lebanon.

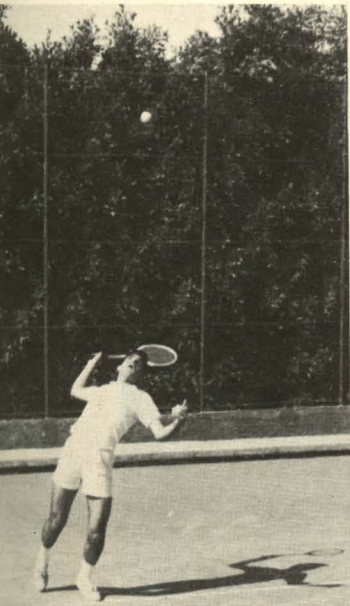

Our Varsity played two remarkable games in the year 1963-'64. The first was against the Shamis University in Cairo, and the second was against Ghouta Club of Damascus. Varsity downed both teams 2-1.

VARSITY TENNIS TEAM

E. Samuel, K. Fawwaz, A. Bezjian.

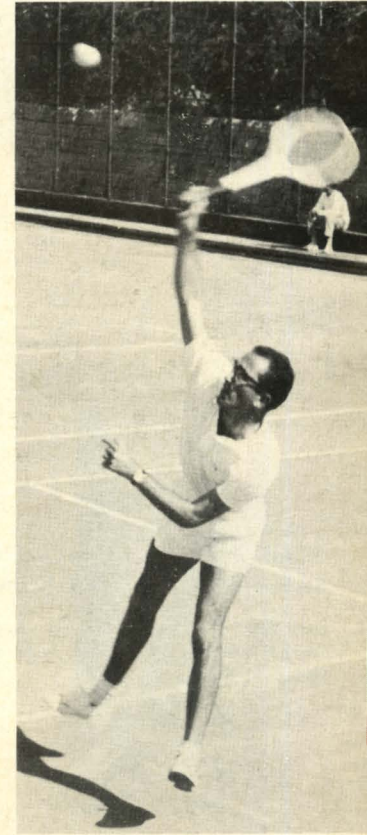

The most interesting game was the Challenge Game between Arts & Sciences and Medicine. Arts & Sciences had Edward Samuel, the Second Champion of A.U.B. and Lebanon, and Makram Alam-ud-Din. Medicine has Karim Fawwaz and Bezjian. In singles, Fawwaz downed Samuel and Bezjian beat Alam-ud-Din. In doubles, Samuel and Alam-ud-Din won the game. Thus, the Challenge Cup was won by Medicine.

Bezjian is the Number Three Champion of the university.

Edward Samuel is the Number Two Champion of A.U.B. and Lebanon.

Being a good tennis player, Makram Alam-ud-Din is the captain of A. U. B. Baseball Team.

VARSITY VOLLEYBALL TEAM

H. Khayrallah, B. Barakat, H. Shashati, L. Suruji,
A. Barakat, R. Soroush, G. Umari, M. Shihab.

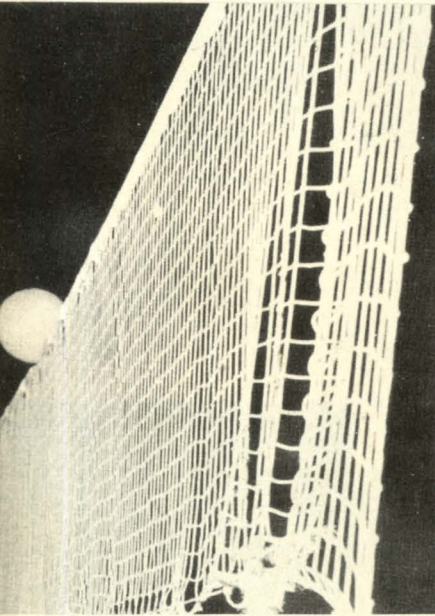

VOLLEYBALL

Varsity lost to Frères, and to Shweir Club 2-3. But, we won Arab University 3-1, Ghouta Club 2-1, and the Kuwait Oil Company team 3-1

Medicine won the Volleyball Championship of A. U. B. The second and the third medals were captured by Engineering Lowers and Engineering Uppers, respectively. The fourth to sixth places went to Agriculture, Freshmen Thursdays, and Freshmen Mondays, respectively.

The Women's Volleyball Championship was won by Nursing.

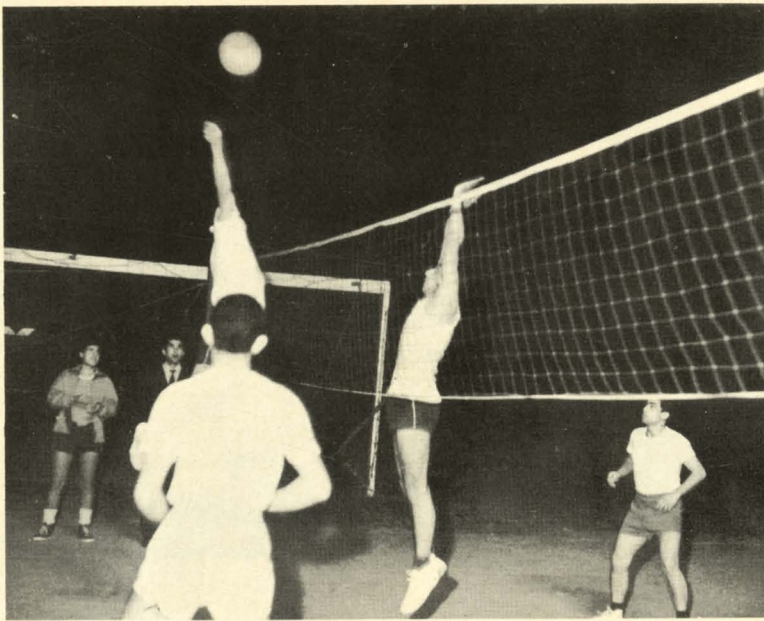

Engineering beat Medicine in an interesting Challenge Game. Engineers also won the game they played against Robert Academy.

SOME PLAYERS OF WOMEN'S VARSITY BASKETBALL AND VOLLEYBALL

First Row : A. Mardikian, H. Agodjian, A. Tejirian.
Second Row : N. Nadir, R. Bedoyan, N. Mikhail, A. Muhtadi, S. Hagopian.

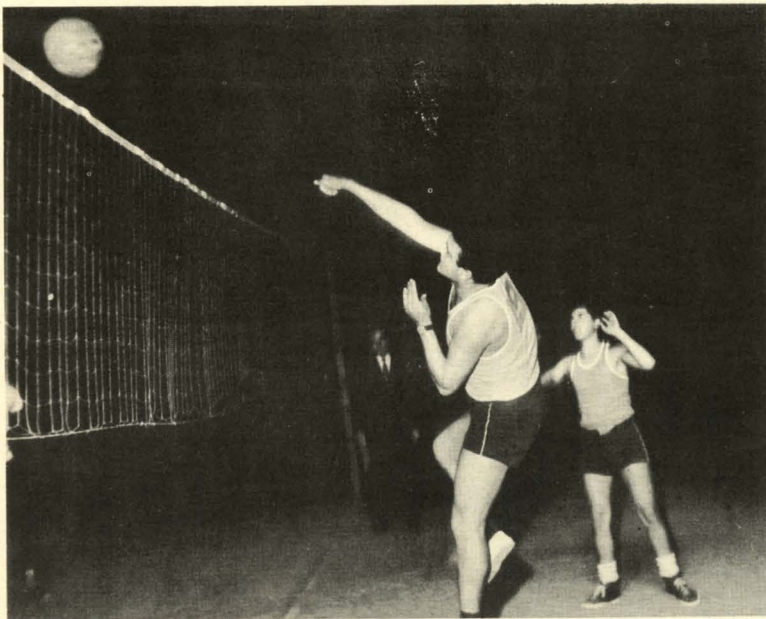

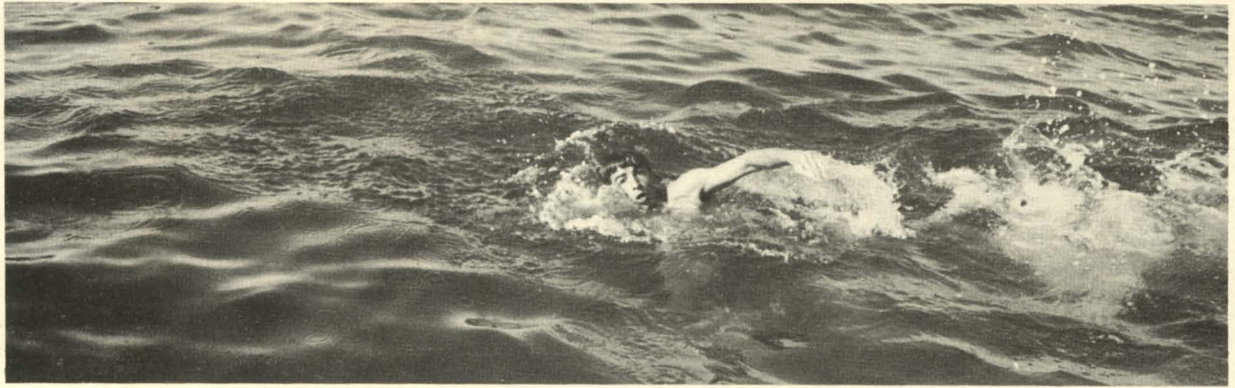

First Row : C. Khuri, S. Nimah. Second Row : Y. Inati, A. Barakat, I. Shamma, B. Barakat, Dr. S. Najjar (the advisor of the team).

MEDICINE VOLLEYBALL TEAM, the Champion Team of A.U.B.

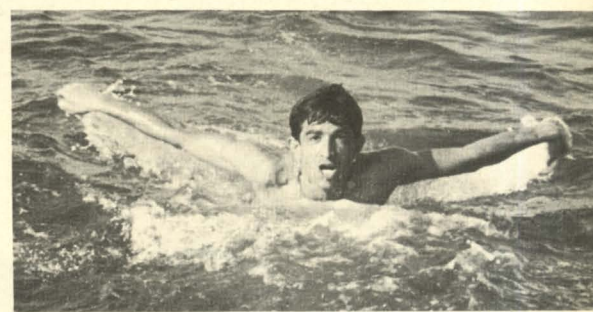

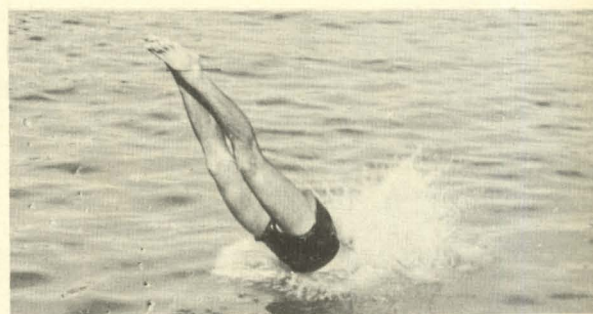

SWIMMING

Our University Beach, which is one of the best beaches in Beirut, is where we have our yearly Swimming Races. On June 2, 1963, we had the yearly competition. In Long Distance Swim Amin Sulayman was the Champion ; the following five winners were M. Sossoyan, M. Juraydini, A. Jamali, A. Somerville, and R. Sulayman. In Hasakie Rowing Norman Hamadeh was the Champion. The second to sixth places were won by Y. Shamma, P. Mirchopan, L. Farsun, S. Harb, and R. Kutayli, respectively.

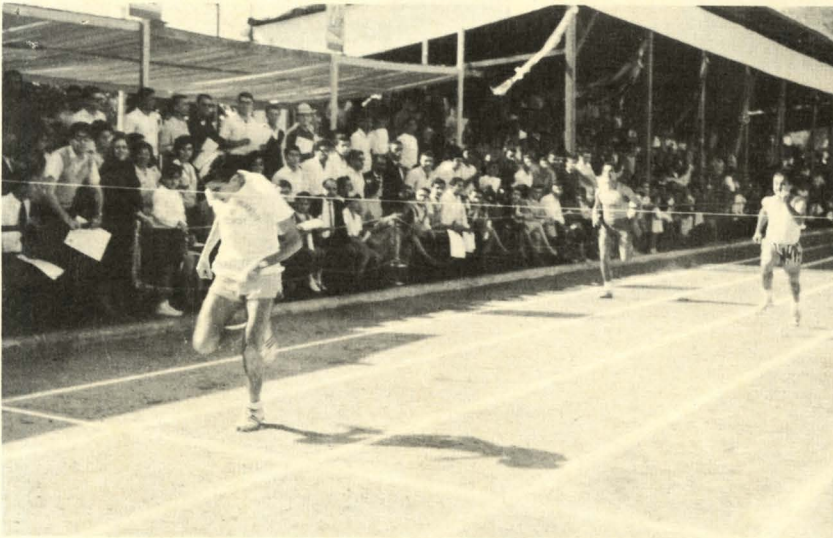

In the past year 57 swimmers joined the A. U. B. Life Saving Group. They were trained in an organized class to pass the tests for the Life Saving badges early in the summer.

THE SIXTY NINTH ANNUAL FIELDDAY MAY 18, 1963

Ramiz Hakim made a new record of 10.8 seconds in 100 meter. The runner-up was Faysal Kanan, and number three was Norman Hamadeh.

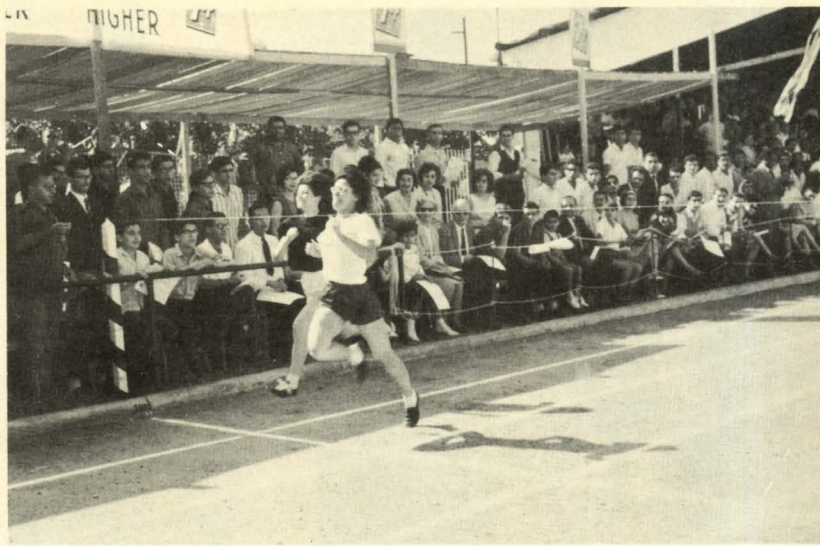

Every year, late in the spring, we have our brightest athletic event, the Annual Field-day. Our Seventieth Field-day will be in May, when Campus '64 is being printed. Prof. Tarabulsi announced that 7 records will be threatened in the Seventieth Field-day. In this section the results of the Sixty Ninth Field-day are reported.

Our 1963 Field-day, which was on May 18, brought success. One new record was established and one tied-both by Ramiz Hakim. The winners received cups and medals which were donated by our Faculty Members, some agencies and firms.

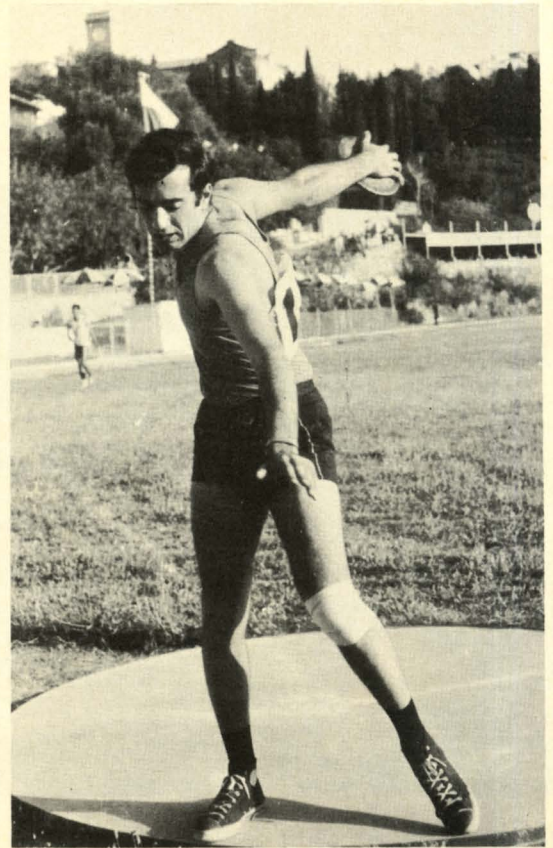

Dean Nichols gives the cup to Mahdessian who won the women's 200 meter. Bassam and Patlan were number two and number three, respectively.

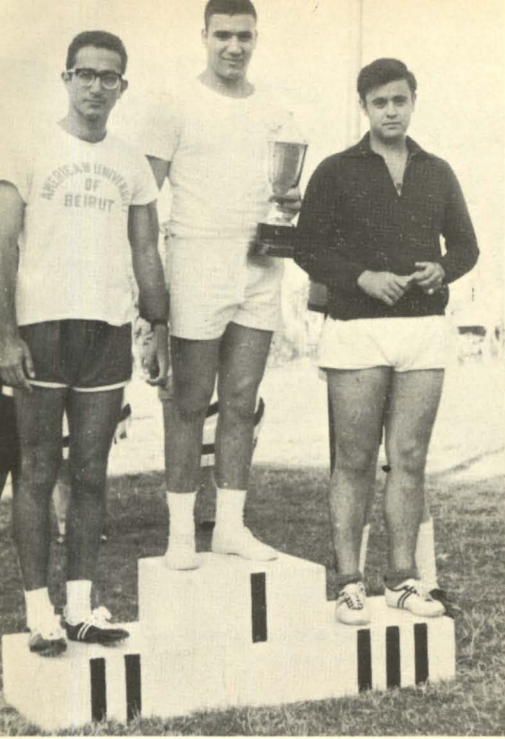

Nabila Bassam won the women's 100 meter. Tahouki Mahdessian was the runner-up, and Shake Hagopian was the third who reached the end line.

In 200 meter low hurdles Faysal Kanán (the fifth from the left) was the cup winner ; Norman Hamadeh (the third from the left) won the second place, and Hanna Sulayman (the fourth from the left) won the third.

Michalakis Peppis won the cup in discus. Second place went to Ghasan Sab and number three was Khalid Umari.

The javelin champion was Jack Hajj. The second and third places went to Makram Alam-ud-Din and Stephanos Stephanou, respectively.

The 400 meter was won by Hanna Sulayman. The runner-up was Faruk Khujah, and Ara Kirkyasharian was the third to reach the end line.

In women's long jump Nabila Bassam (beside the camera-man) won the cup. The number two champion was Tahouki Mahdessian (No. 15), and the third was Shake Hagopian.

No wonder he could not be among the first three long jump champions; he jumped too high.

The long jump champions were Norman Hamadeh, Hanna Sulayman, and Faysal Kanan, respectively.

The final 1500 meter run competitors make the start. The cup winner was Nabil Jabbur (the third from the left) ; the two medals went to Isam Arakji (the fourth from the left) and Hrair Garabedian (the first from the left) who won the second and the third places, respectively.

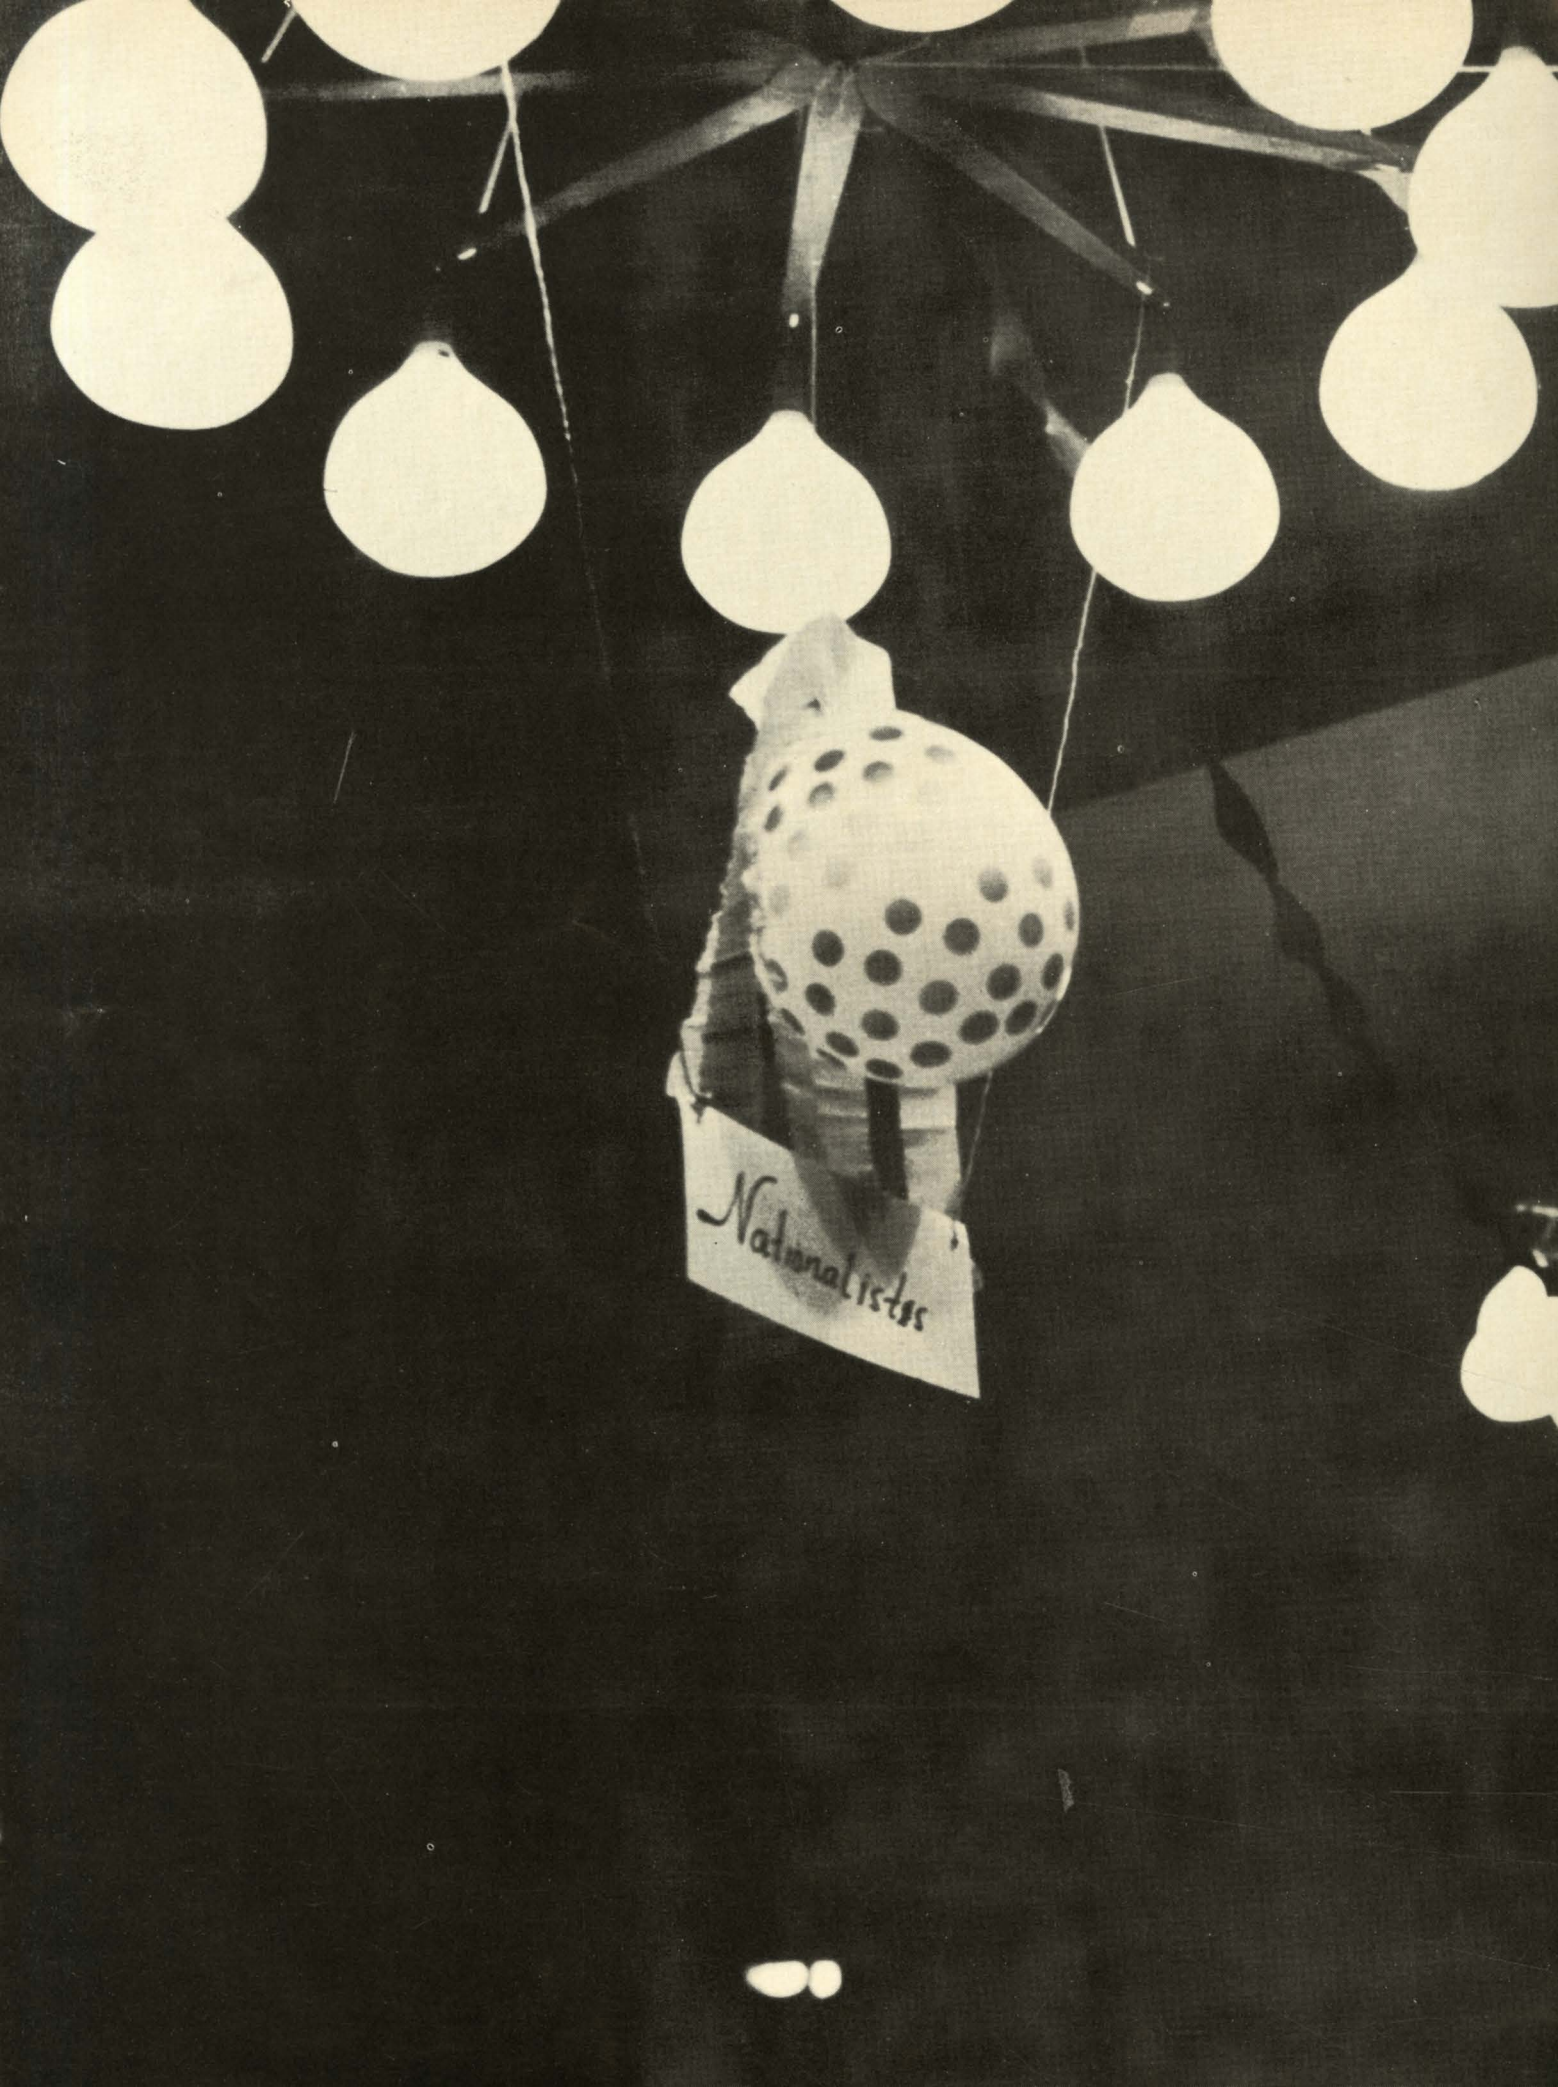

THE RESULTS OF THE SIXTYNINTH FIELDDAY WHICH WERE NOT REPORTED WITH PICTURES

SPORT	FIRST	SECOND	THIRD
200 METER	Ramiz Hakim	Hanna Sulayman	Faruk Khujah
800 METER	Mirghani Jawish	Ara Kirkyasharian	Hanna Sulayman
4 x 100 RELAY	" Upper Classes of Arts "	" Engineering '64 "	" Freshmen Fridays "
HIGH JUMP	Norman Hamadeh	Ali Sepahi	Abdur-Rahman Babikir Zahi Hawwa Joannis Parpas Raja Surur
WOMEN'S HIGH JUMP	Nabila Bassam	Capano Perrone	Tahouki Mahdessian
HOP STEP & JUMP	Norman Hamadeh	Hanna Sulayman	Ramiz Hakim
SHOT PUT	Ghassan Sab	Khalid Umari	Ramzi Kurtas
SOFTBALL THROW	Makram Alam -ud-Din	Ralph Ricketson	Arthur Somerville

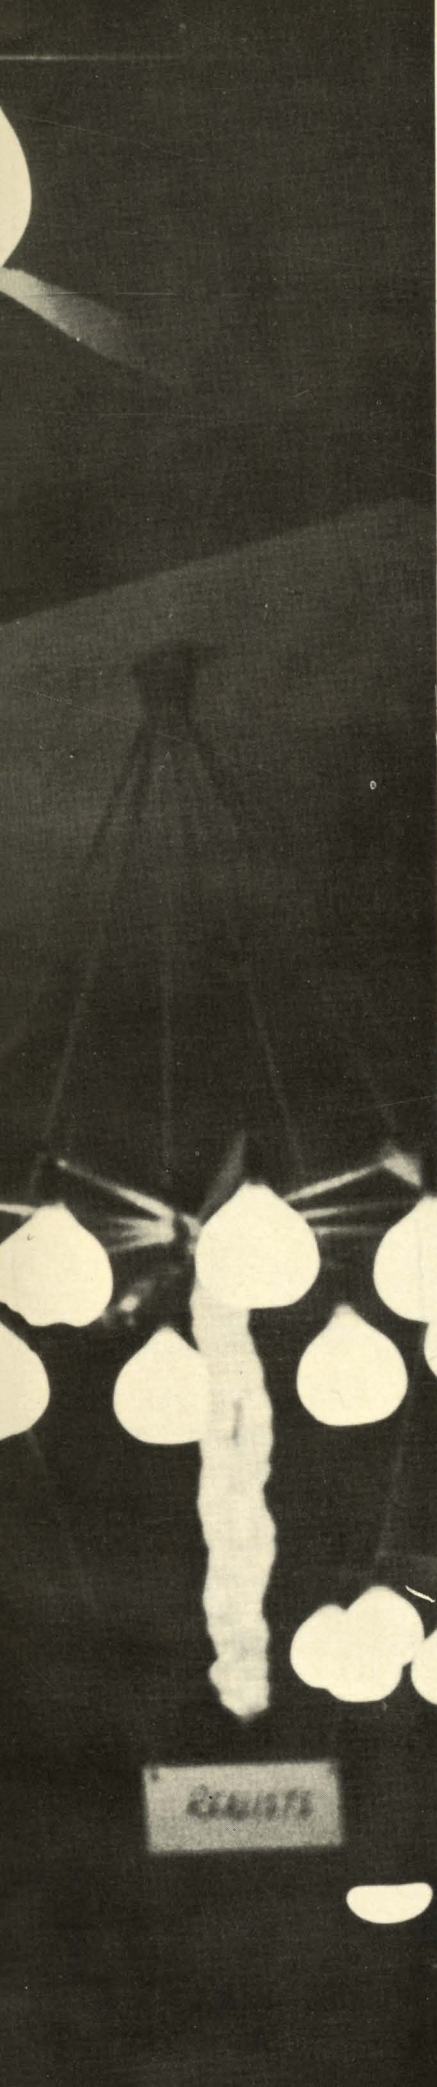

Acknowledgement :

For the aid of the Athletic Department in compiling the data for this section of the yearbook, I am grateful. My thanks also go to Sayak who took most of the pictures and to Serge Kotovsky who took the introductory picture.

A & S YEARBOOK COMMITTEE

Arthur Sommerville, Hanna Suleiman, Ramez Hakim, Khaldoun Malki.

Miss Annie Yenikomshian

Timmy Azar

Early in November, Faysal Najjar came to me and said : "Fuad, the Medical Students' Society has chosen you to represent our school in the Yearbook Board of Managers."

" But Faysal I don't have . . . "

" No, you have no choice. "

And he went away.

Strange thoughts came to my mind : how am I going to face my teachers and friends, especially Faysal, if I do not produce as good a yearbook as CAMPUS '63? But why should I take the responsibility, let them blame the Editor-in-Chief.

And I went to the first meeting of the Board, and I was elected Editor-in-Chief.

Oh ! the difficulty I was in, but thanks to the cooperation and efficient work of the Board members, the worthy advice of Mr. Olaf Haddad and the great help and patience that the SYCO Press personnel gave us, our work went on smoothly and our achievements were good enough to make me believe that to work in CAMPUS is not a burden, but a pleasure.

A handwritten signature in black ink, reading "Fuad Rayha". The signature is written in a cursive style and is enclosed within a hand-drawn rectangular border.

Editor - in - Chief

AD-EX

On behalf of the CAMPUS'64 Board of Managers I wish to extend my sincerest thanks to all advertisers for the cooperation and interest they have so kindly rendered to this publication.

It gives me great pleasure to announce to all our readers and advertisers that this Yearbook has been introduced recently to Miss Anette Stroyberg Vadim, one of the glamorous French movie stars, during her short visit to Lebanon.

It is my hope that this section will meet the satisfaction of each and every advertiser. In recognition of the services they have given, we dedicate this part of the Yearbook to our Advertisers.

Loads instantly, automatically. Has double exposure prevention. Gives beautiful results first time, every time.

**KODAK INSTAMATIC
100 CAMERA**

Here's handsome, fast loading, easy to-use camera everyone will enjoy. Just drop in a KODAPAK Film Cartridge, aim and shoot. Has handy pop-up flash for night or indoor shots.

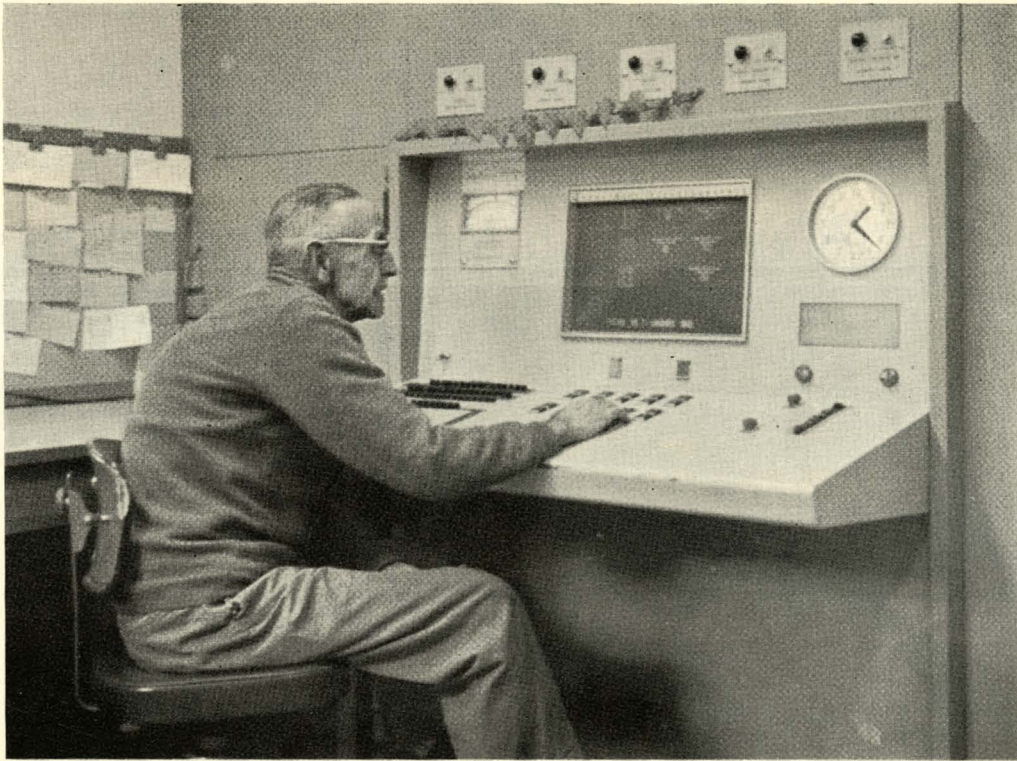

**KODAK INSTAMATIC
400 CAMERA**

A motor drive advances film automatically so you never miss a picture-taking opportunity. Also features pop-up flash plus an electric eye that sets the correct exposure.

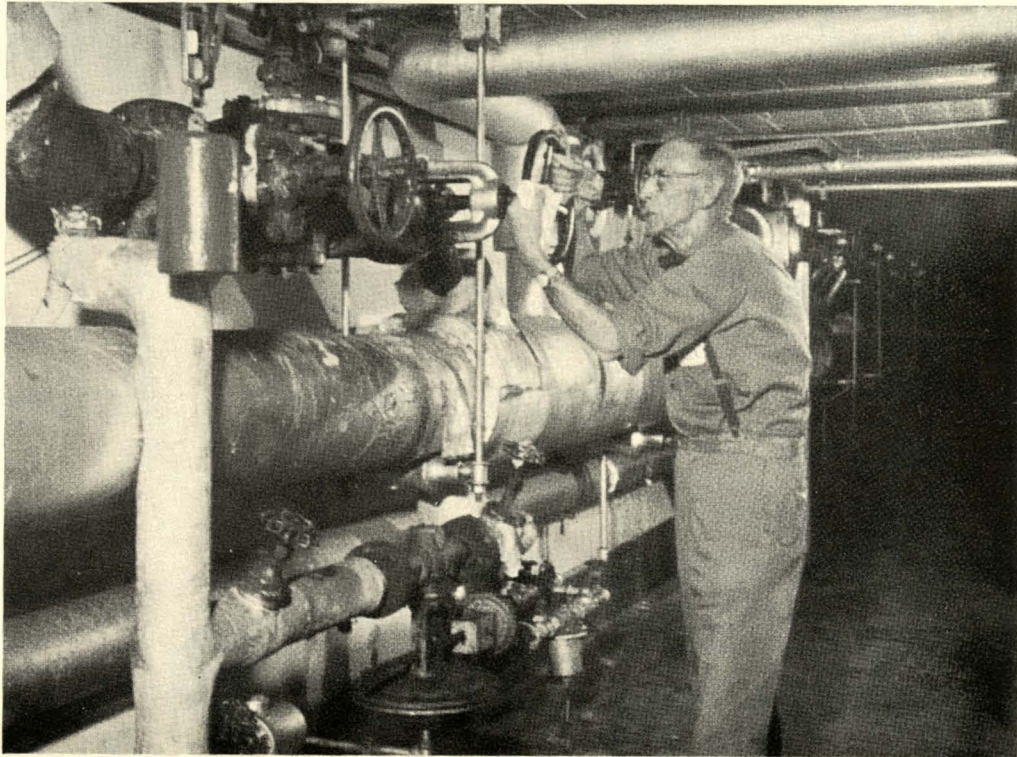

Kodak

- KODAPAK FILM Cartridges come loaded with KODACOLOR for beautiful color prints...
- KODACHROME-X and EKTACHROME-X for brilliant slides and VERICHROME PAN for sparkling black and white snapshots. Truly, picture taking has never been so easy.

After: Seated at this Honeywell console, Larew now can supervise systems in 67 buildings of Harvard's North Yard, operating 32 steam valves, 42 fans, up to 1/2 mile away.

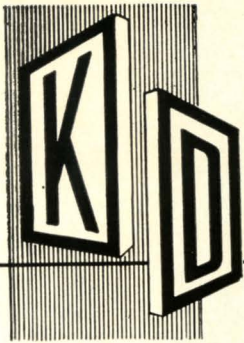

Before: Turning on the heat at Harvard's North Yard buildings once meant daily 2-hour tours through steam tunnels for Isaac H. Larew, engineer, and a crew of associates.

Petroleum : A Means to a Better Life

Caravans once took months to cross from one Arab country to another. Today, a traveler can speed from Beirut to Dhahran or Kuwait or to Rome – in two and a half hours. And the capitals of the Arab world are only a few hours apart, thanks to the airplane and the jet fuel that powers it.

THE PROCTER & GAMBLE COMPANY

Congratulates the graduating classes of 1964 of the American University of Beirut, and wishes them a happy and a prosperous future.

Procter & Gamble produces a large variety of consumer and industrial goods including household cleaning products, paper products, packaged foods and toiletries. It is the largest manufacturer of soaps and synthetic detergents in the world. Tide, Camay, Crisco and Drene are among the well known P & G brands in the Middle East where five factories are devoted exclusively to the production of P & G products. An increasing number of young Arabs fill management positions in these plants and at the Company's Marketing Headquarters in Geneva, Switzerland.

SELECTING AN ADVANCED STUDY PROGRAM...

for an employee of high potentialities is the task of this Aramco management committee shown here. At Aramco the development of an employee's administrative, supervisory and management skills is given great emphasis. Supervisors and the Management Development department design programs for all newly hired college graduates. Senior positions in the company are being filled by the promotion of men who have made good progress in their development programs.

KENT

VOUS ASSURE UN PLAISIR SANS MELANGE

UN PRODUIT DE LA P. LORILLARD COMPANY PREMIERE AVEC LES MEILLEURES CIGARETTES GRACE AUX RECHERCHES LORILLARD

For the treatment
of intestinal infections
— broad application
combined with safety

"TRULFAMYCIN"

Sulfamethazine	83.3 mg.
Sulfadiazine	83.3 mg.
Sulfamerazine	83.3 mg.
(A total of 0.25 G. of sulfonamide)	
Dihydrostreptomycin base (as sulphate)	0.125 G.
Menadione (vitamin K activity) ...	1 mg.

DOSE

Adults: Two tablets every 6 hours for two to three days.

Children: One tablet every 6 hours for two to three days.

In infantile gastroenteritis, treatment may in some cases have to be continued for 6-7 days, in decreasing daily dosage, up to a total of 16 tablets.

MODES OF ISSUE: Boxes of 12 tablets, each hermetically sealed in foil.

CAUTION

Coliform organisms become resistant rapidly to oral streptomycin alone; *on the other hand*, streptomycin has the advantage of reducing the enterococcus population *quickly*. It should, therefore, be given preoperatively for not more than 2 to 3 days.

While untoward effects associated with sulfonamide therapy are greatly reduced by the use of this preparation, vigilance should not be relaxed in the search for and recognition of agranulocytosis, fever, joint pains, skin reactions, etc. Sufficient fluids should be administered to maintain a urinary output of 1000 to 1500 cc. in 24 hours.

hypertension

TABLETS
ALDOMET
TRADEMARK
(METHYLDOPA)

TO CONTROL HIGH BLOOD PRESSURE GENTLY, EFFECTIVELY, ACCEPTABLY

Versatile in indications—recommended in sustained essential hypertension, and in those labile forms unresponsive to sedative therapy.

Effective "around-the-clock"—continuously and significantly reduces lying, sitting and standing pressure; simple dosage adjustment can prevent morning hypotension without sacrifice of afternoon control.

Conducive to normal, everyday activities—works while the patient works; exercise hypotension and diurnal blood pressure variations rarely occur.

Facilitates smooth management—ease of administration;

liberation from critical dosage titration; low incidence of side effects.

Oriented towards the ultimate goal of antihypertensive therapy—helps relieve the vital target organs from the strain of hypertension by effectively lowering blood pressure.

Supplied: Tablets ALDOMET (250 mg. methyldopa, each) in bottles of 30, 100 and 500.

Note: Detailed information on dosage, administration, indications, precautions and bibliography is available on request.

That wonderful Pan Am feeling

It's a feeling reserved for travelers who choose Pan Am.

Wherever they go—the U.S.A., Europe, Africa, the Caribbean, Central or South America, Asia, throughout the Pacific or 'Round the World—travelers feel *better* because they're flying Pan Am. No wonder. Pan Am is the World's Most Experienced Airline.

Pan Am's Experience means more to them—and to you—than all that we or anyone else can offer you on a Jet trip.

It means more than the convenience of hundreds of Pan Am flights linking major cities of the world, more than cuisine by *Maxim's of Paris* and matchless cabin service.

It goes much deeper than the fact that Pan Am's flight and maintenance crews are trained to the highest governmental standards in the world.

It goes far beyond the fact that Pan Am can be your home away from home, where you can get travel help in 900 offices throughout the world.

It has everything to do with your frame of mind—the sure feeling that's yours when you know that you've chosen to fly the very best there is: the World's Most Experienced Airline.
